

Amana Care Clinic Expands Urgent Care Services Across Davenport and Muscatine

January 09, 2026

DAVENPORT, Iowa - January 09, 2026 -
Amana Care Clinic has expanded its walk-in medical services to better serve patients across the Quad Cities region, with locations now operating in Davenport, Bettendorf, and Muscatine, Iowa. The expansion addresses growing demand for accessible, non-emergency healthcare in eastern Iowa communities.

The Davenport health clinic offers comprehensive urgent care services without requiring appointments, providing residents with immediate access to medical treatment for a wide range of conditions. From common illnesses to minor injuries, the clinic's certified medical professionals deliver timely care using on-site laboratory and X-ray capabilities.

"The expansion of our services reflects our commitment to meeting the healthcare needs of Iowa communities," said Moutaz Kotob, PhD, Medical Director at Amana Care Clinic. "By offering walk-in availability and extended service hours, we're ensuring that patients can receive quality medical attention when they need it, without the long waits typically associated with emergency rooms."

Amana Care Clinic Davenport urgent care services encompass treatment for numerous conditions including fractures, sprains, cuts requiring sutures, respiratory infections, and skin conditions. The clinic also provides sports physicals, a service particularly valuable during peak athletic seasons when student athletes require medical clearance for participation.

The clinic's approach to patient care emphasizes efficiency without compromising quality. Patients can utilize online check-in systems to reserve their place in line or walk in directly for immediate evaluation. This flexibility has proven particularly valuable for working families and individuals who cannot schedule traditional medical appointments during standard business hours.

Beyond treating acute conditions, the clinic serves as a healthcare resource for the community, offering full laboratory services including blood work and diagnostic testing. The on-site X-ray equipment enables immediate imaging for suspected fractures and other conditions requiring radiological evaluation, eliminating the need for patients to visit multiple facilities for comprehensive care.

"We've structured our services to address the gap between primary care physicians and hospital emergency departments," added Dr. Kotob. "Many medical issues require prompt attention but don't constitute true emergencies. Our clinic provides that middle ground where patients receive appropriate care in a timely, cost-effective manner."

The clinic's medical staff includes board-certified physicians and experienced health care providers trained in urgent care medicine. Their expertise spans pediatric care through geriatric medicine, enabling the clinic to serve patients across all age groups.

As respiratory illness season approaches, the clinic has prepared for increased patient volume by ensuring adequate staffing and supplies. The facility treats common seasonal ailments including influenza, strep throat, sinus infections, and bronchitis, providing both diagnosis and treatment in a single visit.

Amana Care Clinic operates as a neighborhood medical facility designed to serve both residents and local businesses in the Quad Cities area. The clinic accepts most major insurance plans and offers transparent pricing for self-pay patients. With locations in Davenport, Bettendorf, and Muscatine, the clinic continues to evaluate opportunities for serving additional communities throughout eastern Iowa.
