Heritage Signs & Displays Expands Turnkey Interior Signs and Office Branding Services Across the Mid-Atlantic and Carolinas

December 23, 2025

CHARLOTTE, NC - December 23, 2025 -
Charlotte-based sign company provides in-house design, production, and installation of office signs, wall graphics, and workplace displays, supporting cohesive interior branding for local businesses and multi-location organizations across the Carolinas and Mid-Atlantic.

Heritage Signs & Displays, founded in 1977 and headquartered in Charlotte, NC, provides turnkey interior signs and office branding solutions for professional workplace environments. As a sign company focused exclusively on interior signs and graphics, Heritage helps organizations create cohesive, engaging workspaces through custom office signs, office wall graphics, and workplace wall displays. The company manages interior signage projects through clear communication and coordinated project execution. All work is completed by in-house teams, supporting accountability and attention to detail at every stage.

Heritage focuses on interior signage, producing office signs and graphics for corporate facilities and commercial interiors where clarity, consistency, and visual impact are important. Heritage?s interior signs and graphics solutions integrate into office environments. Offerings include office signs, wall graphics, workplace

wall displays, lobby signage, dimensional lettering, acrylic signs, frosted vinyl, elevator wraps, and interior wayfinding systems. Each project is designed to align with brand standards while supporting communication, navigation, and workplace functionality. All interior signage projects are fully turnkey, managed entirely by Heritage?s in-house team of designers, sign makers, project managers, and installers. This approach reflects the company?s culture and core values of accountability, craftsmanship, collaboration, and professionalism.

Heritage supports organizations with multiple offices in the Mid-Atlantic and Carolinas that have ongoing needs for workplace signs and interior graphics. This has helped Heritage grow its regional footprint while maintaining consistent service and brand standards across markets. With locations in Washington, DC; Arlington, VA; Waldorf, MD; Richmond, VA; Raleigh, NC; Greensboro, NC; and Charlotte, NC, Heritage delivers office signs, interior signs, office wall graphics, and workplace wall displays across the Mid-Atlantic and Carolinas. This regional presence allows the company to manage multi-location branding programs for corporate clients while maintaining uniform design standards, materials, and installation quality with local teams of signage and graphics professionals. At the same time, the company maintains a strong local presence, providing single-location businesses with responsive service and direct support. The company?s internal culture of accountability supports consistent execution across all markets.

Some sign shops outsource graphic design, installation, or production, which can create coordination challenges across timelines and standards. Heritage?s in-house model helps maintain oversight of materials, finishes, timelines, and installation requirements. Environmental graphic design is applied as both a visual and strategic tool, helping organizations communicate their identity, culture, and values. Office wall graphics and workplace wall displays transform blank surfaces into storytelling elements, highlighting mission, leadership principles, milestones, and company history. Window graphics and frosted vinyl enhance privacy while preserving openness and natural light.

Heritage works with organizations that view office branding as an extension of their identity, culture, and values. By combining in-house environmental graphic design, production, fabrication, and installation, the company helps shape how employees, visitors, and clients experience workplace interiors. Interior signage produced by Heritage balances aesthetics with functionality. Office signs and wayfinding systems guide employees and visitors, while lobby signs and dimensional lettering support strong first impressions. Acrylic signs provide versatile solutions for directories and branded displays, and elevator wraps turn high-traffic areas into additional branding opportunities.

About Heritage Signs & Displays

Founded in 1977 and headquartered in Charlotte, NC, Heritage Signs & Displays is a sign company specializing in interior signs and graphics, office signs, and workplace displays for commercial and corporate

environments. Heritage delivers turnkey, in-house design, production, and installation services, combining the personal touch of a local company with the ability to manage multi-location office branding programs across the Carolinas and Mid-Atlantic. Heritage partners with clients to create interior signage and graphics that reflect their culture, mission, and core values. A veteran-owned business, Heritage seeks to honor God by serving others with excellence in every project.
