

TCA Electric Recognized as Finalist in North Vancouver Business Excellence Awards 2025

December 31, 2025

December 31, 2025 -

TCA Electric, a leading electrical contractor serving the North Shore since 2009, has been named a finalist for the Service Excellence Award (11+ employees) at the North Vancouver Chamber of Commerce's 2025 Business Excellence Awards. The recognition, announced following the November 19, 2025 ceremony at the Pinnacle Hotel at the Pier, marks the second consecutive year the company has achieved finalist status in the prestigious awards program.

The North Vancouver Business Excellence Awards celebrate outstanding achievements in local business leadership, innovation, and service delivery. This year's theme, "The Value of Local," highlighted stories of resilience and excellence from the business community. TCA Electric's selection as a finalist in the Service Excellence Award category for companies with 11 or more employees follows their 2024 finalist recognition in the same award category for smaller businesses (1-10 employees), demonstrating the company's consistent commitment to exceptional service as they have grown their team.

TCA Electric has established itself as a trusted provider of commercial electrical services throughout the Greater Vancouver area. The company specializes in comprehensive electrical solutions including electric vehicle charging installation, LED lighting retrofits, backup power systems, and marina electrical work. With over 50 years of collective experience among their team members, the company has built a reputation for delivering high-quality electrical design and professional craftsmanship across residential, commercial, and industrial projects.

"Being recognized as a finalist for the Service Excellence Award two years in a row reflects our entire team's dedication to exceeding client expectations," said Sean Tobin, President of TCA Electric. "As we've expanded our workforce to better serve the North Shore community, maintaining our service standards has remained our top priority. This recognition from the North Vancouver Chamber validates our approach of combining technical expertise with genuine care for our customers' needs."

The consecutive finalist recognitions underscore TCA Electric's position as a leading Vancouver electrician committed to both service excellence and community involvement. The North Vancouver Chamber's Business Excellence Awards serve as an important benchmark for business performance in the region, with finalists selected through a rigorous evaluation process that considers customer satisfaction, professional standards, and community impact. For electrical contractors, achieving finalist status in the Service Excellence category demonstrates not only technical competence but also the ability to deliver consistent, reliable service that builds lasting client relationships.

As TCA Electric continues to expand its service offerings and grow its team of skilled electricians, the company remains focused on maintaining the high standards that have earned them repeated recognition from the North Vancouver business community. Their evolution from a smaller operation to a larger employer while maintaining finalist status in the Service Excellence Awards reflects their successful scaling of quality service delivery.

TCA Electric is a full-service electrical contractor based in North Vancouver, serving residential, commercial, and industrial clients throughout the Greater Vancouver area since 2009. The company provides comprehensive electrical solutions including EV charging installation, electrical service upgrades, LED lighting retrofits, backup power systems, and marina electrical services. As a BC Hydro Power Smart Alliance member and recipient of multiple industry recognitions, TCA Electric combines technical expertise with a commitment to customer satisfaction and community service.
