

In Stock Today Cabinets LLC Enhances IST Loyalty Rewards Program to Support Construction Professionals

December 22, 2025

Columbia, MD - December 22, 2025 -
In Stock Today Cabinets LLC has enhanced its IST Loyalty Rewards Program to better serve construction professionals navigating Maryland's expanding revitalization projects and rising material costs. The program provides automatic rebates of $100 for every $5,000 in purchases, delivering immediate cost relief to contractors, builders, and dealers working across the Baltimore-Columbia corridor.

The program enhancement aligns with heightened construction activity throughout Maryland. Governor Wes Moore announced $69.5 million in awards for 226 revitalization projects on December 17, 2025, with an additional $2.2 billion designated for transportation and infrastructure improvements. However, contractors face significant labor constraints; the Associated Builders and Contractors project a need for 439,000 new workers nationwide in 2025, and in Maryland, immigrant labor comprises over a third of the construction workforce.

The enhanced program became effective on December 16, 2025, allowing contractors to begin earning rebates immediately and positioning the program for a full year of operations starting in January 2026.

The program operates through automatic point tracking, with customers earning two points for every dollar spent on wholesale cabinets and other products. Once 10,000 points accumulate, the $100 discount applies directly to future orders. The system tracks rewards by phone or email, requiring no membership fees or complex redemption processes.

"The IST Loyalty Rewards Program represents more than just financial savings for our professional customers," said Emin Halac, President of In Stock Today Cabinets LLC. "With the current labor shortage and increased project demands from state revitalization efforts, contractors need every operational advantage they can get. The IST Loyalty Rewards Program provides a guaranteed 2% rebate on qualifying purchases, calculated automatically through our point-tracking system: customers earn two points per dollar spent, and every 10,000 points?representing $5,000 in purchases?generates a $100 credit applied to future orders."

The Columbia showroom, located at 9315 Snowden River Parkway, serves as a strategic distribution hub in the Baltimore-Washington corridor. This central location enables rapid material deployment, allowing contractors to service both suburban residential projects and urban revitalization work without supply chain delays. The facility maintains an extensive inventory of Fabuwood and FIBO brand cabinets, with most items available for same-day pickup.

In Howard County, where median home values have held steady at approximately $628,000, homeowners are increasingly investing in renovations rather than relocating. The kitchen cabinets loyalty rewards feature particularly benefits professionals handling multiple residential renovation projects simultaneously.

In Stock Today Cabinets LLC operates as an authorized distributor of Fabuwood and FIBO cabinet products throughout the Mid-Atlantic region, with locations in Alexandria, Fairfax, Columbia, Houston, and Delaware. The company offers ready-to-assemble and pre-assembled all-plywood cabinet solutions, along with design and estimating services for construction professionals.
