

Keathley Landscaping Expands Natural Stonework Services to Meet Growing Demand in North Texas

January 06, 2026

GARLAND, TX - January 06, 2026 - PRESSADVANTAGE -

Keathley Landscaping has expanded its custom stonework and outdoor living space services throughout the Dallas metropolitan area, responding to increased homeowner interest in sophisticated landscape enhancements and functional outdoor environments. The expansion includes enhanced capabilities in natural stonework installations, outdoor kitchens, fireplaces, and comprehensive drainage solutions designed specifically for North Texas properties.

"The demand for quality stonework and outdoor living spaces has grown substantially as homeowners recognize the value these features add to their properties," said Logan Keathley, founder and NDS Certified Drainage Contractor at Keathley Landscaping. "Our expanded services allow us to provide comprehensive solutions that combine aesthetic appeal with practical functionality, whether clients need retaining walls for structural support or decorative flowerbed borders to enhance their gardens."

The Dallas-based landscaping company, which has served the region since 2002, reports significant growth

in requests for custom stonework projects ranging from traditional flagstone pathways to contemporary paver designs. The expansion addresses mounting demand for outdoor living spaces that serve as functional extensions of indoor areas, particularly in Highland Park and surrounding communities, where property owners increasingly invest in landscape improvements.

The company's enhanced stonework capabilities encompass both traditional and modern design approaches. Services include the installation of flagstone patios, custom-designed retaining walls, veneer applications, and intricate flowerbed borders. Each project incorporates materials and techniques suited to North Texas climate conditions and soil characteristics, ensuring long-term durability and minimal maintenance requirements.

Beyond decorative stonework, the expansion addresses critical property management needs through advanced drainage solutions. As an NDS Certified Drainage Contractor, the company provides French drain installations, comprehensive grading services, and custom-designed buried drainage systems tailored to address the unique challenges posed by North Texas clay soil. These services have become increasingly vital as property owners face mounting concerns about foundation damage and landscape deterioration caused by improper water management.

"Water management remains one of the most overlooked aspects of property maintenance until problems arise," noted Keathley. "Our integrated approach combines drainage expertise with landscape design to create solutions that protect properties while enhancing their visual appeal. This comprehensive methodology ensures that beautiful stonework installations remain stable and attractive for years to come."

The expanded service portfolio also includes outdoor kitchen construction, fireplace and fire pit installations, fence repair and installation, tree trimming and removal, landscape lighting, and seasonal maintenance programs. The company maintains operations throughout Dallas, Preston Hollow, Lakewood, Lake Highlands, Allen, Frisco, Plano, Richardson, and additional North Texas communities.

Keathley Landscaping specializes in transforming outdoor spaces through professional landscape design, installation, and maintenance services. The company provides comprehensive landscaping solutions, including sod installation, hardscape construction, drainage systems, and custom stonework. With over two decades of experience serving the Dallas metropolitan area, the company has established a reputation for combining practical expertise with innovative design approaches to create functional and aesthetically pleasing outdoor environments.
