

West Coast Tire & Services Offer Auto Repair Services to San Clemente Market

January 05, 2026

San Juan Capistrano, CA - January 05, 2026 - PRESSADVANTAGE -

West Coast Tire & Services, a certified GoodYear Auto Service Center based in San Juan Capistrano, has announced the expansion of its automotive repair and maintenance services to serve customers throughout San Clemente. The company, which has been providing comprehensive vehicle care since 2006, continues to offer competitive pricing as an alternative to dealership service departments across South Orange County.

The expansion addresses growing demand for professional automotive services in San Clemente, where vehicle owners seek reliable maintenance and repair options without dealership pricing. West Coast Tire & Services brings its ASE-certified technicians and state-of-the-art diagnostic equipment to serve this expanding customer base with the same quality service that has established its reputation throughout the region.

"Our expansion into San Clemente represents our commitment to making professional automotive care

accessible to more drivers in South Orange County," said Todd, a representative from West Coast Tire & Services. "We understand that dealership prices can be overwhelming for many vehicle owners, and we're dedicated to providing the same level of expertise and quality at more competitive rates."

As a certified Good Year San Juan Capistrano dealer, the company offers comprehensive tire services alongside its full range of automotive repairs. The service center handles all major and minor repairs on both foreign and domestic vehicles, including specialized services such as diesel maintenance, engine rebuilding, suspension repair, and cooling system services.

The company's technicians utilize dealer-level diagnostic equipment to accurately identify and address vehicle issues, ensuring that customers receive precise service recommendations. This technology, combined with ASE certification standards, enables the team to maintain vehicles according to factory specifications while keeping costs below typical dealership rates.

"We've built our reputation on honest, professional service over the past 18 years," added Todd. "Expanding our reach to San Clemente allows us to help more drivers maintain their vehicles properly without the premium pricing often associated with dealership service departments."

West Coast Tire & Services also provides factory-scheduled maintenance services, helping vehicle owners maintain warranties while avoiding dealership service department costs. The company works with extended warranty providers and offers financing options to make vehicle maintenance and repairs more accessible to customers.

The service center's comprehensive offerings include brake repair, fuel injector cleaning, wheel balancing, auto air conditioning repair, and radiator services. For diesel vehicle owners, the company provides specialized maintenance and extensive repair services, including lift kit installations and custom tire and wheel packages.

West Coast Tire & Services has established itself as a trusted automotive service provider in San Juan Capistrano since 2006. As a certified GoodYear Auto Service Center Tire Dealer, the company combines the reliability and standards of a national brand with the personalized service and competitive pricing of an independent shop. The company's ASE-certified technicians undergo continuous training to stay current with evolving automotive technology, ensuring they can service the latest vehicle models with the same expertise as older vehicles.
