

Fusion Vine Announces Third Consecutive Presentation at Agency Fast Track 2026 Virtual Conference

January 06, 2026

Loveland, Colorado - January 06, 2026 -
Fusion Vine digital marketing agency announced today that founder Brian Kato will present at the Agency Fast Track 2026 Virtual Conference for his third consecutive year. The presentation will focus on SEO methodologies and automation strategies for digital marketing professionals.

The virtual conference, scheduled for early 2026, brings together SEO professionals, web designers, and digital agencies from around the globe. Kato's participation marks his third year as a presenter at the event, where he will share insights on streamlining SEO processes through innovative uses of Google Sheets and databases.

"The Agency Fast Track conference has become an important venue for sharing practical SEO strategies with the digital marketing community," said Brian Kato, founder of Fusion Vine. "This year's presentation will focus on automation techniques that help agencies scale their operations while maintaining quality outcomes

for clients."

Kato's previous presentations at Agency Fast Track have covered client profitability assessment and automated SEO strategies for founders. His YouTube channel features educational content on local SEO scaling with AI integration, human-centered strategy development, and brand-building techniques for agencies. These resources have garnered views ranging from 50 to over 100 per video, according to YouTube analytics.

The 2026 conference will feature multiple tracks covering technical SEO, content strategy, agency operations, and emerging technologies. The virtual format eliminates travel requirements and allows global participation. Sessions will include interactive segments, Q&A opportunities, and networking components designed to facilitate knowledge exchange among attendees.

Agency Fast Track has announced sponsorships from Tested SEO Training, LocalDominator, Press Advantage, HighLevel, and LeadSnap. These partnerships support the conference infrastructure and provide resources to attendees. The conference maintains tiered pricing structures to accommodate professionals at various career stages.

The event organizers have structured the program based on feedback from previous years' participants. Past attendees have reported implementing strategies learned at the conference into their agency operations. The 2026 program will build on this foundation with updated content reflecting current industry developments.

Registration for the virtual conference opened this month with early bird pricing available through December 31. The conference website provides access to the schedule, speaker information, and ticket purchasing options. Social media channels offer updates on conference preparations and speaker announcements.

Fusion Vine specializes in SEO and digital marketing services, with over a decade of experience in the industry. The agency focuses on developing streamlined optimization processes using technology tools and data-driven strategies. Kato established the agency to provide practical SEO solutions for businesses seeking to improve their digital presence.
