Cabinet Boost Announces Free Pass Distribution for KBIS 2026 Exhibition

January 21, 2026

LONG BEACH, CA - January 21, 2026 -
Cabinet Boost, an AI-driven marketing agency specializing in the cabinet and home improvement industry, announced it will distribute complimentary expo passes for the Kitchen & Bath Industry Show (KBIS) 2026, scheduled for February 17-19 at the Orange County Convention Center in Orlando, Florida. The company will exhibit at booth S19183 and offer qualified cabinet manufacturers and remodeling businesses exclusive access to the industry's premier trade event.

The KBIS 2026 free pass initiative represents Cabinet Boost's commitment to supporting cabinet businesses seeking growth through advanced marketing technologies. The expo passes, valued at standard admission rates, provide access to more than 700 exhibitors across nearly 500,000 square feet of exhibit space at North America's largest kitchen and bath industry gathering.

Cabinet Boost's participation at KBIS 2026 follows the company's recent membership in the National Kitchen & Bath Association, marking a strategic expansion of its industry engagement. At the exhibition, the marketing agency will demonstrate its proprietary Cabinet Boost Growth Engine, which combines AI-powered targeting, automated follow-up systems, and local SEO optimization specifically designed for cabinet and remodeling businesses.

"Cabinet manufacturers and showroom owners consistently tell us that staying current with industry trends while managing their marketing needs presents a significant challenge," said Sezgin Arslan, CEO of Cabinet Boost. "By offering these KBIS 2026 Tickets, we're enabling businesses to explore both the latest product innovations and marketing technologies that can transform their operations in a single venue."

The company will offer live demonstrations at its booth, including digital health checks for cabinet business websites, SEO audits, and competitor analysis sessions. These consultations aim to help cabinet manufacturers and showroom owners identify opportunities for improving their digital presence and lead

generation strategies. Cabinet Boost currently manages over $2 million in advertising spend for clients nationwide, specializing in eliminating tire-kickers and price-shoppers through advanced targeting methodologies.

The complimentary expo passes are available to qualified cabinet manufacturers, custom cabinetry businesses, kitchen and bath remodeling companies, and showroom owners. The passes provide full access to the exhibition floor, product demonstrations, and educational sessions throughout the three-day event. Distribution will continue through February 16, 2026, or while supplies last.

The KBIS 2026 Dates coincide with the National Kitchen & Bath Association's Voices from the Industry conference, providing attendees opportunities for professional development, continuing education units, and networking with industry leaders. The event expects to draw more than 55,000 industry professionals, making it the most comprehensive gathering for kitchen and bath businesses in 2026.

Cabinet Boost is an AI-driven marketing agency based in Long Beach, California, serving cabinet and home improvement businesses nationwide. The company offers comprehensive digital marketing solutions, including paid advertising management across Google, Meta, and Yelp platforms, automated CRM integration, and proprietary lead generation systems designed specifically for the cabinetry industry.
