

# **United International Removals Colchester Expands Essex Operations to Meet Growing Overseas Relocation Demand**

*January 09, 2026*

January 09, 2026 - PRESSADVANTAGE -

United International Removals Colchester has expanded its depot operations in response to increased demand from Essex and East Anglia residents seeking professional overseas relocation services. The expansion enables the company to provide enhanced support for individuals and families planning international moves from the region.

The Colchester-based facility, located at Morses Lane Industrial Estate in Brightlingsea, has increased its operational capacity to accommodate the rising number of relocations to destinations including Australia, New Zealand, the United States, Canada, Dubai, and European countries. The expansion positions the company to better serve the growing expatriate community and those pursuing opportunities abroad.

"We have witnessed a significant increase in inquiries from Essex and East Anglia residents planning international moves over the past year," said Ross Dunlevy, speaking for United International Removals

Colchester. "Our expanded facility allows us to provide more comprehensive support throughout the entire relocation process, from initial planning through customs clearance at the destination."

As an international removals company in Essex, United International Removals specialises in both international and European removals, offering door-to-door services that encompass packing, shipping, and customs documentation. The company's strategic location provides excellent transport links to London, the M25 motorway, and major UK ports, facilitating efficient connections for international shipments.

The expansion comes at a time when many UK residents are exploring opportunities abroad for work, education, and lifestyle changes. Recent industry data indicates that international relocations from the East of England have increased by approximately 15 per cent compared to pre-2020 levels, with popular destinations including Australia, Spain, Portugal, and the United Arab Emirates.

United International Removals serves a diverse client base, including UK expatriates relocating for employment, students pursuing international education, retirees seeking warmer climates, and families embarking on lifestyle changes. The company also assists businesses with commercial relocations and individuals transporting inheritance goods from overseas.

The enhanced Colchester depot features improved storage facilities and loading capabilities, enabling the company to handle moves of varying sizes more efficiently. The International removals service includes comprehensive packing options, flexible shipping arrangements through partnerships with leading overseas shipping lines, and assistance with customs requirements for different destination countries.

"Our goal is to simplify what can be a complex and stressful process," added Dunlevy. "Whether someone is moving to Sydney or Stockholm, we provide tailored solutions that address their specific requirements and timeline."

With over 25 years of experience in the international removals industry, United International Removals has established operations across the UK. The company provides customised quotes based on individual requirements, taking into account factors such as shipment size, destination, and preferred timeline. The Colchester depot serves as a key hub for international relocations originating from Essex and the broader East Anglia region, offering specialised expertise in navigating the logistics and regulations associated with overseas moves.
