

Century Limousine Launches Car Service To LAX

April 04, 2016

April 04, 2016 - PRESSADVANTAGE -

Century Limousine, Southern California's premier limo service, is proud to announce that they now offer a car service to the Los Angeles International Airport (LAX), one of the world's busiest airports. The service is particularly useful for business travelers, enabling them to avoid complex public transportation issues and allowing them to work while they ride. The car service to LAX is already proving to be very popular.

Joseph Babakhanyan, founder of Century Limousine, says: "We are very happy to now offer service to LAX. It is proving to be incredibly popular with business people in particular, who want to be able to get a few things done before boarding their flight. However, car service to LAX is great for anyone who just doesn't want to deal with the hassle of traffic, parking or the terminal."

Century Limousine picks passengers up from their location and drops them off at their departure terminal. The company's most popular vehicle for service to LAX is the Lincoln Town Car. However, limousines are also available.

In fact, the company prides itself on its expansive fleet of vehicles, which truly has something for any occasion.

"We've built a fleet of vehicles with just about every personality and every type of special occasion in mind," Babakhanyan said. "Of course we have something for the business traveler, but we also have the perfect options for events like concerts, special occasions like weddings or for those times when things might get a little out of control, like bachelor parties. As for trips the airport, use a car service. You'll be glad you did."

Those interested in booking car service to LAX or a limo for an event are encouraged to visit the company's website at centurylimos.com. An online booking form is available, as well as contact details to speak to a booking agent directly.
