

Rigert Treppenlifte AG Expands Stair Climber Rental Services Across Switzerland

January 12, 2026

Küssnacht am Rigi, SZ - January 12, 2026 -
Rigert Treppenlifte AG, a leading Swiss mobility solutions provider with over 60 years of experience, has expanded its stair climber rental services to better serve individuals and healthcare facilities across German, French, and Italian-speaking regions of Switzerland. The expansion addresses growing demand for temporary and flexible mobility solutions as the country's aging population seeks alternatives to permanent installations.

The company's enhanced rental program now includes a comprehensive range of stair climbers and portable mobility devices, providing immediate accessibility solutions for recovery periods, temporary living situations, and trial periods before permanent installation decisions. This development comes as healthcare facilities and senior living communities increasingly seek flexible mobility options for their residents. The company maintains comprehensive information about its services at https://rigert-treppenlifte-kuesnacht.localo.site.

The expansion of the company's rental services reflects the evolving needs of Swiss families and healthcare

providers who require immediate, professional mobility solutions without the commitment of permanent installation. Rigert Treppenlifte AG's portable stair climbers and temporary lift solutions enable individuals recovering from surgery or experiencing temporary mobility challenges to maintain their independence and safety at home.

The rental program expansion builds on Rigert Treppenlifte's established reputation for quality craftsmanship and expert service. As part of the Garaventa Group, the company maintains the largest customer service network in the Swiss mobility solutions industry, ensuring rapid deployment and professional support for rental equipment across all regions.

Recent data from Swiss healthcare authorities indicates that temporary mobility challenges affect thousands of individuals annually, particularly during post-operative recovery periods. The availability of professional-grade rental equipment addresses this gap, providing safe alternatives to risky stair navigation during vulnerable recovery phases.

The expanded service includes comprehensive consultation, delivery, setup, and training by certified technicians. Each rental unit undergoes thorough safety inspection and maintenance according to Swiss safety standards, ensuring reliable operation for users with varying mobility needs. Find more news about the company here: https://pressadvantage.com/organization/rigert-treppenlifte-ag.

Beyond individual rentals, the program serves rehabilitation centers, hospitals, and senior living facilities requiring short-term mobility solutions for residents. This flexibility allows institutions to accommodate residents with changing needs without significant capital investment in permanent installations.

Rigert Treppenlifte AG has established its presence across Switzerland since 1962, specializing in stairlifts, platform lifts, wheelchair lifts, and stair crawlers. The company's commitment to accessibility extends beyond product provision to include project planning, professional installation, and ongoing customer service. Their solutions serve both private homes and public spaces, with installations designed to integrate seamlessly with existing architecture.

With branches strategically positioned across German, French, and Italian-speaking regions, Rigert Treppenlifte AG continues to advance mobility solutions that enable Swiss residents to navigate their homes safely and maintain their independence, regardless of physical limitations or recovery status.
