

Advanced Injury Care Clinic Announces Expanded Saturday Hours for Nashville Patients

January 12, 2026

NASHVILLE, TN - January 12, 2026 -
Advanced Injury Care Clinic, a Nashville-based chiropractic and personal injury treatment center, has announced expanded weekend accessibility with new Saturday operating hours. The clinic now welcomes patients for both scheduled appointments and walk-in visits from 9 AM to 2 PM on Saturdays, addressing the growing need for flexible healthcare options among working professionals and busy families.

The expansion comes as the clinic continues to serve Nashville residents recovering from car accidents, workplace injuries, and other personal injury cases. With over 10 years of experience treating car accident victims and chronic pain conditions, the clinic recognized that many patients struggle to attend appointments during traditional weekday hours due to work commitments and family responsibilities.

"Adding Saturday hours represents our commitment to removing barriers to essential care," said Dr. Dar'Neshia Roberts, lead chiropractor at Advanced Injury Care Clinic. "Many of our patients are dealing with significant pain from accidents or injuries while trying to maintain their work schedules. Weekend availability

ensures they can receive the treatment they need without sacrificing their professional obligations."

The Saturday schedule accommodates both pre-scheduled appointments and walk-in patients, providing flexibility for those experiencing acute pain or requiring immediate attention following an injury. This approach particularly benefits individuals involved in recent car accidents who may experience delayed onset of symptoms such as whiplash or back pain.

Advanced Injury Care Clinic Now Open On Saturday marks a significant development for the Nashville healthcare community, where access to specialized injury care on weekends has traditionally been limited. The clinic's comprehensive services include treatment for whiplash, neck pain, back pain, slip and fall injuries, and work-related injuries.

The clinic's expansion reflects broader trends in healthcare delivery, where providers are adapting to meet patients' evolving needs. Research indicates that convenient scheduling options significantly improve treatment compliance and patient outcomes, particularly for those managing pain conditions that require consistent care.

Patients seeking updates about the clinic's services and scheduling can Follow our clinic for updates through various communication channels. The clinic maintains an active presence in the community and regularly shares information about injury prevention, treatment options, and recovery strategies.

Advanced Injury Care Clinic specializes in comprehensive injury assessment and treatment, with particular expertise in car accident recovery. Located at 2700 Gallatin Pike in Nashville, the facility features modern chiropractic equipment and treatment rooms designed to support patient recovery.

The clinic's team focuses on helping patients achieve both physical recovery and proper documentation for insurance and legal purposes. This comprehensive approach includes detailed injury assessments, customized treatment plans, and thorough reporting for employers and insurance providers when necessary.
