RestoPros of North & Central New Jersey Celebrates Better Business Bureau Accreditation

January 23, 2026

MORRISTOWN, NJ - January 23, 2026 -
RestoPros of North & Central New Jersey has achieved Better Business Bureau accreditation, marking a significant milestone for the professional restoration company that has served residential and commercial clients throughout the region since 2018. The BBB Accreditation recognizes the company's commitment to maintaining high standards of trust and ethical business practices in the restoration industry.

The accreditation comes as the restoration specialist continues to expand its emergency response services across North and Central New Jersey, providing 24/7 assistance for water damage, fire and smoke damage, mold remediation, storm damage, and complete restoration and rebuild services. The Better Business Bureau evaluates businesses based on their adherence to strict standards, including building trust, advertising honestly, being transparent, honoring promises, being responsive, safeguarding privacy, and embodying integrity.

The restoration company, which holds certification from the Institute of Inspection, Cleaning and Restoration Certification (IICRC), has built its reputation on rapid emergency response and comprehensive restoration services. With over 30 years of combined industry experience, the team specializes in helping property

owners recover from unexpected disasters, including burst pipes, electrical fires, severe storms, and other emergencies that can cause extensive property damage.

"Achieving Better Business Bureau accreditation represents our ongoing dedication to providing exceptional restoration services while maintaining the highest ethical standards in our industry," said Owen Lee, owner of RestoPros of North & Central New Jersey. "This recognition validates our commitment to treating every client with respect and fairness, values that have guided our company since day one. When families and businesses face devastating property damage, they need a restoration partner they can trust completely, and this accreditation reinforces that trust."

The BBB accreditation process involves a thorough review of business practices, customer complaint history, advertising practices, and transparency in business operations. Accredited businesses must agree to uphold the BBB's Standards for Trust and undergo monitoring to ensure continued compliance. For restoration companies operating in emergency response situations, this level of accountability provides additional assurance to property owners during stressful circumstances.

RestoPros of North & Central New Jersey distinguishes itself through its comprehensive approach to restoration, managing entire projects from initial emergency response through complete reconstruction. The company works directly with insurance providers to streamline the claims process for clients, reducing stress during property recovery. Their services encompass water extraction and drying, smoke and soot removal, mold inspection and remediation, structural repairs, and complete rebuilding when necessary.

Based in Morristown, the company serves an extensive area throughout North and Central New Jersey, maintaining round-the-clock availability for emergencies. The restoration specialist offers free inspections and provides detailed quotes for all restoration projects, ensuring transparency in pricing and scope of work.

RestoPros of North & Central New Jersey operates as part of a growing national network of restoration professionals, with franchising opportunities available for qualified operators. The company maintains its focus on core values of respect, family, fairness, and excellent customer service while continuing to expand its reach and capabilities in the restoration industry.
