Dogwood Disposal Reinforces Position as Leading Waste Management Provider in Statesboro, GA

January 15, 2026

January 15, 2026 -
Dogwood Disposal continues to strengthen its role as a dependable dumpster rental service provider for residential, commercial, and construction projects throughout Southeast Georgia. Based in Statesboro, the company offers roll-off dumpster solutions designed to support efficient cleanup, renovation, and construction operations across its growing service area.

The company provides 15-, 20-, and 30-yard roll-off dumpsters, serving communities including Statesboro, Metter, Sylvania, Guyton, Coolidge, and Glennville. These dumpster rental options support a wide range of projects, from residential cleanouts and remodeling jobs to commercial renovations and construction debris management.

?As Southeast Georgia continues to grow, the need for reliable dumpster rental services has increased,? said Halver Dixon, Operations Manager at Dogwood Disposal. ?We focus on offering straightforward pricing, timely delivery, and dependable service so customers can manage waste efficiently at every stage of their project.?

Dogwood Disposal supports its dumpster rental operations with an online booking system that allows customers to reserve containers, schedule delivery and pickup, and review pricing details in advance. This system helps homeowners, contractors, and property managers plan waste disposal logistics with clarity and confidence.

dumpster sizes are designed to match varying project scopes. 15-yard dumpsters are commonly used for small renovations, garage cleanouts, and landscaping projects. 20-yard dumpsters are suited for medium-sized remodeling jobs and property cleanouts, while 30-yard dumpsters accommodate larger construction projects, whole-home renovations, and commercial cleanouts. Accepted materials include construction debris, furniture, appliances, yard waste, and general project debris, with restrictions in place for prohibited materials.

Reliable waste planning continues to play an important role in keeping projects on schedule. A Dogwood Disposal Dumpster Service in Statesboro addresses this need by maintaining consistent dumpster availability and flexible rental periods that align with customer timelines.

To meet increasing demand, the company has expanded its dumpster rental coverage to include rural and outlying areas between major population centers, improving access to roll-off dumpster services throughout Southeast Georgia.

?We work closely with customers to ensure they have the right dumpster size and rental schedule for their specific needs,? Dixon added. ?From residential cleanouts to active construction sites, our goal is to provide reliable service from delivery through pickup.?

Based in Statesboro, Georgia, Dogwood Disposal specializes in 15-, 20-, and 30-yard roll-off dumpster rentals for residential and commercial projects throughout Southeast Georgia, with a continued focus on transparency, reliability, and professional service.
