

## **West Coast Tire & Services Expands Auto Repair Services to San Clemente Residents**

*April 20, 2026*

San Juan Capistrano, CA - April 20, 2026 - PRESSADVANTAGE -

West Coast Tire & Services, a certified GoodYear Auto Service Center in San Juan Capistrano, has announced the expansion of its automotive repair and maintenance services to include customers from San Clemente, broadening its reach throughout South Orange County.

The expansion comes as the company continues to build on its reputation for providing dealer-quality automotive services at competitive prices. Since 2006, the ASE-certified facility has served customers seeking alternatives to high dealership costs while maintaining the same level of professional service and expertise.

"Our expansion to serve San Clemente residents reflects our commitment to making quality automotive care accessible to more drivers in South Orange County," said Todd, owner of West Coast Tire & Services. "We understand that vehicle maintenance and repairs can be costly, which is why we focus on providing honest, transparent pricing without compromising on service quality."

The company offers comprehensive automotive services including auto repair, diesel repair, factory-scheduled maintenance, tire repair, engine rebuilding, suspension repair, and radiator repair. As a certified Good Year San Juan Capistrano dealer, the facility combines the resources of a national brand with the personalized attention of a local business.

West Coast Tire & Services distinguishes itself through its use of state-of-the-art dealer-level diagnostic equipment and ASE-certified technicians who stay current with the latest automotive technology. The company handles all major and minor repairs on both foreign and domestic vehicles, providing services that range from routine maintenance to complex engine rebuilds.

The facility also specializes in diesel maintenance and extensive diesel repairs, offering additional services such as lift kits, tires, and wheels specifically for diesel vehicles. For customers concerned about unexpected repair costs, the company offers financing options and works with extended warranty providers to help manage expenses.

"We recognize that our customers rely on their vehicles for work, family obligations, and daily life," added Todd. "By expanding our service area and maintaining competitive pricing, we aim to be the trusted automotive partner for more residents throughout the region."

The expansion to San Clemente adds to the company's existing service areas, which include Dana Point, San Juan Capistrano, and Laguna Niguel. This geographic growth allows the company to serve a broader customer base while maintaining its focus on quality service and customer satisfaction.

West Coast Tire & Services operates as a full-service automotive facility equipped to handle everything from routine oil changes and tire rotations to complex diagnostic work and major repairs. The company performs factory maintenance schedules at competitive prices, helping vehicle owners maintain their warranties while avoiding dealership service department costs.

Since establishing operations in 2006, the company has built a reputation for honest and professional automotive repair services in South Orange County. The combination of certified technicians, modern diagnostic equipment, and a commitment to transparent pricing has positioned the company as a trusted alternative to dealership service departments throughout the region.
