# Intensa Dry Achieves BBB Accreditation for Excellence in Restoration Services

*January 29, 2026*

PLANO, TX - January 29, 2026 -
Intensa Dry, a Texas-based restoration company specializing in emergency property recovery, has achieved accreditation from the Better Business Bureau, reinforcing its commitment to maintaining the highest standards of service and customer care in the restoration industry.

The BBB accreditation represents a significant milestone for the Plano-based company, which has built its reputation on rapid response times and comprehensive restoration solutions for both residential and commercial properties throughout the Dallas-Fort Worth metropolitan area. The achievement comes as the company continues to expand its service capabilities across multiple Texas communities including Frisco, McKinney, Melissa, and Euless.

BBB accreditation requires businesses to meet and maintain specific standards of trust, including a commitment to make good faith efforts to resolve consumer complaints, advertise honestly, and be transparent about business practices. For property owners facing emergency situations, this accreditation provides additional assurance when selecting a restoration partner during critical times.

"Achieving BBB accreditation validates our dedication to ethical business practices and exceptional customer service," said Elnard Khozha-Akhmedov, owner of Intensa Dry. "When property owners experience devastating events requiring water damage restoration or fire damage restoration, they need a partner they can trust completely. This accreditation demonstrates our commitment to transparency, integrity, and delivering on our promises to every client we serve."

The company has established itself as a leader in emergency response services, maintaining a 30-minute response time guarantee and operating around the clock to address urgent restoration needs. With IICRC certification and a team of licensed and certified technicians, Intensa Dry employs advanced equipment and EPA-approved treatment solutions to ensure thorough and safe restoration processes.

The accreditation comes at a time when property damage incidents continue to impact Texas communities, whether from severe weather events, plumbing failures, or fire-related emergencies. The company's comprehensive approach includes initial damage assessment and inspection, complete cleanup and mitigation services, structural repairs, and assistance with insurance claim documentation.

Intensa Dry's service portfolio encompasses emergency water extraction, structural drying, smoke damage repair, soot removal, and complete reconstruction services. The company works directly with insurance carriers to streamline the claims process, providing detailed documentation and expert guidance to help property owners navigate the complexities of restoration and recovery.

As a locally owned and operated business, Intensa Dry has earned a 4.9 rating based on more than 98 customer reviews, reflecting consistent delivery of quality restoration services. The company's family-owned structure enables personalized attention to each project while maintaining the professional standards and technical expertise required for complex restoration challenges.

Intensa Dry specializes in comprehensive water restoration and fire damage restoration for properties affected by water and fire damage throughout the Dallas-Fort Worth area. The company provides 24/7 emergency response, certified restoration services, and complete reconstruction capabilities for both residential and commercial properties.
