

Dr. Jim Brantner, M.D. Plastic and Reconstructive Surgery Johnson City Expands Advanced Cosmetic Solutions

January 27, 2026

JOHNSON CITY, TN - January 27, 2026 -
Dr. Jim Brantner, M.D. Plastic and Reconstructive Surgery Johnson City announces expanded availability of comprehensive cosmetic and reconstructive procedures to meet growing patient demand in the Tennessee region. The practice continues to integrate advanced technologies and techniques across its full spectrum of surgical and non-surgical treatments.

The Johnson City-based practice has enhanced its service offerings to include the latest advancements in facial rejuvenation, body contouring, and non-invasive treatments. Jim Brantner MD Johnson City provides patients with access to both traditional surgical procedures and innovative non-surgical alternatives, allowing for customized treatment plans based on individual patient needs and goals.

"The field of plastic and reconstructive surgery continues to evolve with new technologies and refined techniques that deliver better outcomes with reduced recovery times," stated Dr. Jim Brantner, M.D., founder of the practice. "Our commitment remains focused on providing patients with comprehensive options that range from surgical procedures to non-invasive treatments, ensuring each individual receives the most

appropriate care for their specific situation."

The practice offers an extensive range of facial rejuvenation procedures including facelifts, brow lifts, neck lifts, eyelid surgery, and rhinoplasty. Injectable treatments such as Botox, Juvederm, and other dermal fillers provide non-surgical alternatives for patients seeking facial enhancement. Body contouring services encompass liposuction, tummy tucks, arm contouring, and thigh lifts, while breast procedures include augmentation, lifts, reduction, and reconstruction.

Non-invasive treatment options have become increasingly popular among patients seeking aesthetic improvements without surgical intervention. The practice utilizes SculpSure technology for stubborn fat reduction, along with Morpheus, Lumecca, ThermiTight, and Tetra CO2 treatments. Chemical peels and microdermabrasion services complement the comprehensive approach to skin rejuvenation.

"Patient education and informed decision-making are fundamental to achieving successful outcomes," added Dr. Brantner. "We encourage individuals to learn more about Dr. Jim Brantner and the various treatment options available to determine the most suitable approach for their aesthetic goals."

The practice maintains its commitment to patient accessibility through flexible financing options and comprehensive patient resources. As a Cosmetic surgeon Johnson City residents have relied upon for years, the practice continues to serve patients seeking both aesthetic enhancement and reconstructive procedures following injury or medical treatment.

Dr. Jim Brantner, M.D. Plastic and Reconstructive Surgery Johnson City specializes in cosmetic and reconstructive surgery procedures. The practice offers a comprehensive range of surgical and non-surgical treatments including facial rejuvenation, breast procedures, body contouring, and injectable treatments. The practice serves the Johnson City area and surrounding Tennessee communities, providing patients with advanced aesthetic and reconstructive solutions in an accredited medical facility.
