

Jodie Construction LLC Expands Luxury Deck Services Across Northwest Arkansas

January 29, 2026

ROGERS, AR - January 29, 2026 -
Jodie Construction LLC, a luxury home remodeling company serving Northwest Arkansas since 2022, announces the expansion of its specialized deck construction services to meet increasing demand for high-end outdoor living spaces across Benton, Madison, and Washington Counties.

The expansion enables the company to serve additional clients in Rogers, Bentonville, Fayetteville, and Springdale as residential growth continues throughout the region. The company has experienced a significant increase in requests for custom deck installations as homeowners invest in property improvements rather than relocating in the current housing market.

Jodie Construction Luxury Decks services focus on creating custom outdoor spaces that complement existing home architecture while incorporating durable materials designed to withstand Arkansas weather conditions. Each project emphasizes both aesthetic appeal and functional longevity, addressing the specific needs of Northwest Arkansas homeowners seeking to enhance their outdoor living areas.

"The demand for quality outdoor living spaces has grown substantially as more families recognize the value these additions bring to their homes," said a spokesperson for Jodie Construction LLC. "Our expansion allows us to bring our neighborhood-focused approach and strict quality standards to more communities throughout Northwest Arkansas, ensuring each deck project receives the same attention to detail and craftsmanship that defines our work."

Northwest Arkansas continues to experience substantial residential growth, with many established neighborhoods seeing increased renovation activity. The expansion of deck construction services addresses this market demand while maintaining the company's commitment to upfront pricing and clear communication throughout each project.

The company's deck construction services represent one component of its comprehensive renovation offerings. Jodie Construction Exterior Home Renovation services include siding installation, window replacement, and exterior painting, while interior services encompass kitchen renovations, bathroom remodels, and open concept designs. This full-service approach allows homeowners to coordinate multiple improvement projects through a single contractor.

The company differentiates itself through its neighborhood-focused approach, treating each project as an opportunity to improve both individual homes and the broader community. This philosophy has guided operations since the company's founding in 2022 and remains central to its expansion strategy.

Deck construction projects require specialized knowledge of materials, structural requirements, and weather resistance factors specific to the Arkansas climate. The company's team brings expertise in working with various materials and design styles, allowing customization to match each home's architectural character while ensuring long-term durability.

The timing of the expansion aligns with seasonal planning patterns, as many homeowners begin considering outdoor improvement projects for the upcoming year. Early planning allows for proper design consultation, material selection, and scheduling to ensure project completion during optimal weather conditions.

Jodie Construction LLC maintains operations throughout Benton, Madison, and Washington Counties, providing luxury deck construction alongside comprehensive interior and exterior renovation services. The company's expansion reinforces its position as a specialized provider of high-end home improvement solutions in Northwest Arkansas.
