# Monett Veterinary Hospital Expands Pet Boarding Services to Aurora MO

*January 29, 2026*

MONETT, MO - January 29, 2026 -
Monett Veterinary Hospital has expanded its comprehensive pet boarding services to better serve families in Aurora, Missouri, providing a trusted solution for pet care when owners travel or need temporary accommodation for their animals.

The AAHA-accredited veterinary hospital, which has served the southwest Missouri region since 1953, now offers enhanced accessibility to its boarding facilities for Aurora residents. The expansion addresses growing demand from pet owners seeking professional, veterinary-supervised boarding that combines medical expertise with comfortable accommodations.

The Monett Veterinary Pet boarding service includes climate-controlled accommodations, daily exercise sessions, and individualized feeding schedules tailored to each pet's specific dietary requirements. The facility maintains separate areas for dogs and cats, recognizing the distinct needs of different species during their stay.

"Pet owners in Aurora have been requesting convenient access to veterinary-backed boarding services that go beyond traditional kenneling," said Erin Carnes, Client Services Director at Monett Veterinary Hospital. "Our facility provides the unique advantage of having veterinary professionals on-site, ensuring that boarded pets receive immediate medical attention if needed while maintaining their regular health routines."

The boarding facility operates under the same high standards that earned Monett Veterinary Hospital the AAHA Commitment to Excellence Award and recognition as a Veterinary Economics Architectural Award Excellence winner. Staff members undergo specialized training in animal behavior and stress reduction techniques to ensure each pet's stay is as comfortable as possible.

Pet owners from Aurora can now take advantage of the hospital's TLC Wellness Care program integration

with boarding services, allowing pets to receive scheduled vaccinations, preventive treatments, or routine examinations during their stay. This coordination eliminates the need for separate veterinary appointments and ensures pets remain current on their healthcare needs.

For feline guests, the Monett Veterinary Cat Boarding Service features specialized cat condos designed to reduce stress and provide vertical space for climbing and perching. The cat boarding area remains completely separate from canine areas, ensuring a quieter, more relaxed environment for cats who may be sensitive to the presence of dogs.

The expansion to serve Aurora comes as part of Monett Veterinary Hospital's ongoing commitment to providing comprehensive veterinary and pet care services throughout southwest Missouri. The hospital's boarding services complement its full range of medical, surgical, and preventive care offerings, creating a one-stop solution for pet health and wellness needs.

Monett Veterinary Hospital has provided veterinary services to the southwest Missouri region for over seven decades. Founded in 1953 by Dr. C.J. McCormick, the hospital offers comprehensive medical, surgical, and preventive care for dogs and cats, along with specialized services including orthopedic surgery, laser surgery, radiology, and internal medicine. The facility also provides grooming, doggie daycare, and boarding services, maintaining its commitment to improving the quality of life for pets and their families throughout the region.
