Access Interiors Expands Office Refurbishment Services Across Norfolk Region

January 27, 2026

Cambridge, CB - January 27, 2026 -
Access Interiors Ltd, a Cambridge-based commercial project management company, has announced the expansion of its comprehensive office refurbishment and mezzanine flooring services throughout Norfolk, addressing growing demand for workspace transformation in the region.

The company, established in 1994, now serves businesses across Norfolk including Norwich, King's Lynn, Great Yarmouth, Thetford, and surrounding areas. This expanded service area reflects increased regional demand for professional office design and fit-out services as businesses seek to modernize their workspaces and maximize operational efficiency.

Access Interiors - Office Refurbishment Norfolk services encompass complete workspace transformations, from initial space planning through to final installation. The company specializes in creating tailored solutions that address specific business requirements while optimizing available space through innovative design approaches.

"Norfolk businesses are increasingly recognizing the value of well-designed office spaces in attracting talent

and improving productivity," said Martin Dawson, Director at Access Interiors Ltd. "Our expansion into the region allows us to bring nearly three decades of expertise to local companies seeking to transform their work environments without the disruption and cost of relocation."

The company's service portfolio includes office space planning, commercial interiors, partition systems, suspended ceilings, commercial flooring, and electrical installations. A particular area of expertise is mezzanine floor installation, which enables businesses to create additional workspace within existing buildings. These intermediate floor solutions have proven especially valuable for warehouses, industrial sites, and offices seeking to maximize vertical space.

Access Interiors manages complete office relocation projects, handling everything from initial planning through to final setup at new premises. The company also provides dilapidation services, helping businesses restore leased properties to their original condition at lease end, ensuring compliance with contractual obligations.

The expansion comes as businesses across Norfolk adapt to evolving workplace requirements. Many organizations are redesigning their offices to accommodate hybrid working models, improve collaboration spaces, and enhance employee wellbeing. Professional office refurbishment has become essential for companies seeking to remain competitive in attracting and retaining talent.

Project management forms a core component of Access Interiors' approach. Each project receives dedicated oversight from conception through completion, with coordination of contractors, suppliers, and stakeholders to ensure timely delivery within budget parameters. This comprehensive management approach minimizes disruption to daily business operations during refurbishment work.

The company's track record includes projects ranging from minor interior updates to extensive commercial transformations. Their experience spans multiple sectors, with solutions tailored to meet specific industry requirements and regulatory standards.

Access Interiors Ltd operates from offices in Cambridge and Ely, serving businesses throughout East Anglia. The company's expansion into Norfolk represents a strategic response to regional growth and demand for professional office refurbishment services. With established relationships with suppliers and contractors, Access Interiors delivers modern interior solutions that meet diverse performance specifications and budget requirements.
