

Chin Up! Aesthetics Serves Atlanta Metro with Three Medspa Locations

January 26, 2026

Atlanta, Georgia - January 26, 2026 -
Chin Up! Aesthetics, a medical spa specializing in aesthetic and cosmetic treatments, currently serves clients from three locations throughout the Atlanta metropolitan area. The medspa operates facilities in Kennesaw, Decatur, and Smyrna/Vinings, Georgia, providing face, body, skin, and wellness treatments to residents across the region.

The practice offers a comprehensive range of aesthetic services delivered by a team of licensed aestheticians, nurse practitioners, and physician assistants. Staff members hold specialized training in medical aesthetics and work with advanced treatment technologies across all three locations.

"Our goal has always been to make professional aesthetic treatments accessible to clients throughout the Atlanta area," said a spokesperson for Chin Up! Aesthetics. "Operating three locations allows us to provide convenient access points across the metro area while maintaining the personalized care that defines our practice."

Chin Up! Aesthetics provides treatments across four primary categories: face, body, skin, and wellness services. Face treatments include Botox, Dysport, dermal fillers, chemical peels, and microneedling procedures. These services address concerns ranging from fine lines and wrinkles to volume loss and skin texture.

Body treatments available at the practice include Emsculpt Neo, Emsella, fat-burning B12 injections, Kybella, and Sculptra BBL. The Emsculpt Neo technology combines muscle building with fat reduction, while Kybella targets submental fat through injectable treatments.

Skin treatment options encompass Hydrafacial procedures, Keravive scalp rejuvenation, photofacial treatments using intense pulsed light technology, platelet-rich plasma injections, laser hair removal, and peptide therapy. The practice also maintains wellness treatment offerings, including Sculptra and medical-grade skincare programs.

"We structured our service menu to address the full spectrum of aesthetic concerns our clients bring to us," the spokesperson said. "Whether someone seeks facial rejuvenation, body contouring, skin health improvement, or overall wellness support, they can find appropriate treatment options at any of our locations."

The clinical staff at Chin Up! Aesthetics includes licensed aestheticians, nurse practitioners, and physician assistants who have completed specialized training in medical aesthetics. Team members participate in ongoing education to remain current with developments in aesthetic medicine and treatment technologies.

Each location maintains the same standard of clinical expertise and treatment protocols. The practice utilizes consistent equipment and techniques across its Kennesaw, Decatur, and Smyrna/Vinings facilities to ensure uniform service quality regardless of which location a client visits.

The medspa emphasizes individualized treatment planning as a core component of its service model. New clients receive complimentary consultations during which clinical staff assess concerns, discuss goals, and develop customized treatment recommendations.

"Every client presents unique aesthetic goals and considerations," the spokesperson said. "The consultation process allows our team to understand those individual factors and create treatment plans that align with what each person hopes to achieve."

Chin Up! Aesthetics has implemented several operational features designed to improve client accessibility and convenience. The practice offers direct text communication, allowing clients to reach staff without navigating phone systems or appointment portals.

The premium medspa provides flexible payment structures including membership programs and interest-free financing options. These programs aim to reduce financial barriers that might otherwise prevent clients from pursuing desired treatments.

Educational resources available through the practice include a blog covering aesthetic treatment topics and in-person consultation discussions. Staff members provide information about treatment options, expected outcomes, and aftercare requirements as part of the client education process.

The three-location structure positions Chin Up! Aesthetics to serve clients across a substantial portion of the Atlanta metropolitan area. The Kennesaw location serves the northwest metro region, the Decatur facility covers the eastern metro area, and the Smyrna/Vinings location provides access for clients in the central and western portions of the metropolitan area.
