

Lake Nona Performance Club Introduces ROX Climbing Gym to Expand Indoor Fitness Options

February 05, 2026

ORLANDO, FL - February 05, 2026 - PRESSADVANTAGE -

Lake Nona Performance Club has introduced a new ROX climbing gym experience to its comprehensive fitness facility in Orlando, Florida, expanding its indoor fitness offerings to include dynamic climbing activities for members of all skill levels.

The addition of the ROX climbing gym represents a significant enhancement to the facility's existing fitness programs, which already include group exercise classes, aquatics programs, mind-body training, and integrated wellness services. The climbing experience provides members with an alternative workout option that combines strength training, cardiovascular fitness, and mental focus in a controlled indoor environment.

"The ROX climbing gym aligns perfectly with our mission to provide diverse, cutting-edge fitness experiences that challenge our members in new ways," said a Lake Nona Performance Club spokesperson. "Indoor climbing offers a unique combination of physical and mental benefits that complement our existing programs while attracting fitness enthusiasts looking for innovative training methods."

The Lake Nona Performance Club's climbing gym features various climbing routes designed to accommodate beginners through advanced climbers. The facility incorporates modern climbing wall technology and safety systems, ensuring participants can challenge themselves while maintaining proper safety protocols. The climbing experience integrates with the club's broader approach to whole-person health, offering members another avenue for achieving their fitness goals.

Indoor climbing has gained significant popularity in recent years as fitness enthusiasts seek engaging alternatives to traditional gym workouts. The activity provides full-body conditioning, improving grip strength, core stability, flexibility, and problem-solving skills. Research indicates that climbing activities can burn between 500 to 900 calories per hour while developing functional strength and endurance.

The ROX climbing gym addition complements Lake Nona Performance Club's extensive amenities, which include state-of-the-art gym equipment, LES MILLS group exercise classes, aquatics facilities, spa services, and specialized programs for children and teens. Members can incorporate climbing sessions into their existing fitness routines or participate in dedicated climbing programs designed by certified instructors.

"Adding the ROX climbing experience demonstrates our commitment to evolving with our members' needs and fitness trends," noted the Lake Nona Performance Club representative. "This expansion reinforces our position as a premier destination for comprehensive fitness and wellness in the Orlando area."

The facility's approach to integrated wellness extends beyond traditional fitness offerings. Members have access to dietitian consultations, recovery services including cold plunge therapy, educational conferences, and a rewards program that recognizes consistent participation and achievement.

Lake Nona Performance Club serves the Orlando community as a comprehensive fitness, sports, and integrated wellness facility. The club provides tailored fitness solutions for members of all ages and skill levels through its academy programs, personal training services, group exercise classes, aquatics facilities, and spa services. The facility emphasizes whole-person health through leading-edge equipment, state-of-the-art classes, and interactive fitness programs driven by the latest technology.
