

Keathley Landscaping Announces Enhanced Sod Installation Services Across North Texas Communities

February 11, 2026

GARLAND, TX - February 11, 2026 - PRESSADVANTAGE -

Keathley Landscaping, a Dallas-based landscaping company serving North Texas since 2002, announces expanded capabilities for rapid sod installation services across multiple communities including Parker, Sachse, and Rowlett. The company now completes most residential sod installations within one to three days, addressing the growing demand for professional lawn transformation services in the region.

The announcement comes as homeowners increasingly seek professional solutions for establishing healthy, sustainable lawns that enhance property values and curb appeal. With over two decades of experience in the landscaping industry, the company has refined its sod installation process to deliver faster turnaround times while maintaining high success rates for lawn establishment.

"Professional sod installation requires more than just laying grass on dirt," said Logan Keathley, NDS Certified Drainage Contractor and owner of Keathley Landscaping. "We address underlying issues like soil preparation, drainage problems, and grading before installation begins. This comprehensive approach

ensures the new sod thrives long after we leave the property."

As sod installers in Parker, the company has observed increased interest in professional lawn installation services as property owners recognize the complexity of proper sod establishment. The process involves clearing existing vegetation, preparing and grading the soil, addressing any drainage concerns, and carefully installing the selected grass variety to match local climate conditions and property requirements.

The company offers multiple grass varieties suitable for North Texas properties, including St. Augustine, Zoysia, Bermuda, and Tall Fescue. Each variety presents different maintenance requirements and aesthetic qualities, allowing property owners to select options that best match their preferences and lifestyle needs.

Beyond sod installation sasche residents have come to rely on, the company provides comprehensive landscaping services including landscape lighting, yard drainage solutions, stonework and retaining walls, French drain installation, flowerbeds and hardscapes, fence repair and installation, patio covers, outdoor kitchens, and tree services. This full-service approach allows property owners to coordinate multiple outdoor improvements through a single contractor.

"The difference between professional installation and DIY attempts becomes evident within weeks," added Keathley. "Proper soil preparation, correct installation techniques, and immediate post-installation care determine whether a lawn thrives or struggles. Our systematic approach addresses each critical factor."

The expansion of services reflects growing market demand across North Texas communities. Keathley Landscaping Rowlette operations have expanded to accommodate increased service requests, with the company maintaining dedicated teams for each service area to ensure prompt response times and consistent quality.

Keathley Landscaping specializes in residential and commercial landscaping services throughout Dallas, Garland, Wylie, Plano, and surrounding areas. Since 2002, the company has provided landscape design and construction, hardscape installation, drainage solutions, and comprehensive lawn care services. As an NDS Certified Drainage Contractor, the company combines technical expertise with practical solutions for complex outdoor challenges, delivering reliable results for North Texas property owners.
