

West Coast Tire & Services Expands Auto Repair Services to San Clemente and Ladera Ranch

April 22, 2026

San Juan Capistrano, CA - April 22, 2026 -
West Coast Tire & Services, a certified GoodYear Auto Service Center in San Juan Capistrano, has announced the expansion of its service area to include San Clemente and Ladera Ranch, providing residents with an alternative to dealership pricing for automotive maintenance and repair needs.

The expansion addresses growing demand for professional automotive services in South Orange County, where vehicle owners have increasingly sought alternatives to high dealership costs. The company, which has operated as a full-service auto repair and maintenance facility since 2006, brings its ASE-certified technicians and state-of-the-art diagnostic equipment to these new service areas.

"Expanding our service area to San Clemente and Ladera Ranch represents our commitment to making quality automotive care accessible to more South Orange County residents," said Todd, spokesperson at West Coast Tire & Services. "We understand that dealership pricing can be prohibitive for many vehicle owners, and we're dedicated to providing the same level of expertise and service at competitive rates."

The expansion comes as automotive repair costs continue to rise across California, with dealership service departments often charging premium rates for routine maintenance and repairs. West Coast Tire & Services offers comprehensive automotive services including engine rebuilding, suspension repair, brake service, diesel maintenance, and tire services for both foreign and domestic vehicles.

As a certified Good Year San Juan Capistrano dealer, the facility maintains factory-level service standards while offering more competitive pricing than traditional dealerships. The company's technicians utilize dealer-level diagnostic equipment to ensure accurate problem identification and efficient repairs across all vehicle makes and models.

The expanded service area coverage means residents of San Clemente and Ladera Ranch can now access the same comprehensive automotive services that have established the company's reputation throughout San Juan Capistrano, Dana Point, and Laguna Niguel. Services range from routine oil changes and factory-scheduled maintenance to complex engine rebuilds and diesel repairs.

"Our goal has always been to provide honest, professional automotive service that customers can trust," added Todd. "By extending our reach to these communities, we're able to help more drivers maintain their vehicles properly without the premium pricing typically associated with dealership service departments."

The company also offers financing options and works with extended warranty providers to help customers manage repair costs. Their service offerings include specialized diesel maintenance and repair, lift kit installations, wheel and tire services, radiator repair, fuel injector cleaning, and comprehensive cooling system services.

West Coast Tire & Services has built its reputation on combining the reliability and expertise of a national service center with the personalized attention of a local business. The facility's ASE-certified technicians undergo continuous training to stay current with evolving automotive technology and repair techniques. Since 2006, the company has provided automotive repair and maintenance services to South Orange County residents, establishing itself as a trusted alternative to dealership service departments.
