Jesus Mighty Men has announced the opening of a new online Christian store that is dedicated to providing t shirts with Christian messages. The company offers a number of t shirts, all under their new signature line.

Greg Ryan, the owner of the Christian clothing company, recently commented on the online store's opening stating, "This is the clothing line for Jesus Mighty Men and it is known as the Truth signature." Ryan says that the company hopes people will take the time to look at their new line of clothing, and that they offer styles, sizes, and colors for a number of personal preferences. The company also offers coffee mugs and a variety of other items for purchase, as well as an informative blog on their website.

Greg Ryan explains that the Christian line of t shirts was designed to give believers a unique look at the Scriptures. Each item that is produced is based on a specific Bible scripture, although he states that it won't be all about just quoting scripture. He states that the line is more about getting people to read what is on the shirts and really think about what they are reading. "We want them to consider what they're seeing, to really pay attention to the words instead of dismissing it just because it's from the Bible," he adds.

He says that the line is designed to be a witnessing tool, but a unique one and that each t shirt will contain a unique and positive message from God. He states that the store offers both men and women's Christian T shirts, and that they are also celebrating their opening by offering a new opening promotion, giving people \$10 off their entire new collection of shirts in celebration of the Easter holiday season.

Greg Ryan says that he hopes people will view his shirts as unique and fun and as something that can encourage them daily. He urges believers to try the Signed the Truth line for themselves, to build their faith and their wardrobe at the same time.

Those interested in learning more about the company or seeing the line of Christian based t shirts for themselves can do so on the company's official website.
