

Like Father Like Son Roofing Emphasizes Critical Gutter Services for Southwest Missouri Properties

March 04, 2026

PURDY, MO - March 04, 2026 -
Like Father Like Son Roofing and Construction LLC, a family-owned contractor serving Southwest Missouri, highlights the importance of professional gutter maintenance and installation as severe weather patterns continue to impact regional properties. The Purdy-based company reports increased demand for comprehensive gutter solutions across Monett, Springfield, Aurora, Republic, and surrounding communities.

The company's expanded focus on gutter systems comes as property owners throughout Southwest Missouri face mounting challenges from heavy rainfall, ice dams, and aging drainage infrastructure. Like Father Like Son Roofing Gutter Services addresses these concerns through custom-fit rain gutter systems, seamless gutter installation, repair and maintenance programs, downspout installation, and gutter guard protection systems.

"Property owners often underestimate the critical role that properly functioning gutters play in protecting their entire home structure," said Eric, owner of Like Father Like Son Roofing and Construction. "From foundation

damage to basement flooding and landscape erosion, the consequences of neglected gutter systems can result in thousands of dollars in preventable repairs. Our team ensures that each gutter system we install or repair provides reliable, long-term protection against water damage."

The company's comprehensive approach to exterior home protection extends beyond gutter services. Like Father Like Son Roofing Siding installation complements their gutter work by providing additional weather resistance and enhanced curb appeal for residential and commercial properties throughout the service area. This integrated approach allows property owners to address multiple exterior needs through a single, trusted contractor.

Recent weather events in Southwest Missouri have demonstrated the vulnerability of properties with inadequate or damaged gutter systems. Common issues identified by the company's inspection teams include clogged downspouts, sagging gutters, improper pitch, and deteriorated fasteners. These problems, when left unaddressed, can lead to rotting fascia boards, foundation cracks, and structural damage that far exceeds the cost of proper gutter maintenance.

The company maintains an A+ rating with the Better Business Bureau, reflecting its commitment to quality workmanship and customer satisfaction across all service lines. Each gutter installation includes custom design options, material selection suited to specific property needs, and professional installation by licensed and insured technicians. The company backs all work with a comprehensive workmanship warranty.

As part of their commitment to community service, Like Father Like Son Roofing and Construction offers free, no-obligation inspections for property owners concerned about their gutter systems. These assessments help identify potential problems before they escalate into costly repairs, providing homeowners with clear information about their options.

Like Father Like Son Roofing and Construction LLC operates as a fully licensed and insured contractor throughout Southwest Missouri. The company specializes in roof installation, roof repair, gutter services, siding installation, and spray foam insulation. Founded on principles of quality craftsmanship and personalized service, the family-owned business combines traditional roofing expertise with modern installation techniques to deliver comprehensive exterior home protection solutions. The company provides 24/7 emergency services to address urgent roofing and gutter issues affecting residential and commercial properties across the region.
