Grow With Us Learning Academy Expands Child Care Services with New Fort Walton Beach Center

June 29, 2026

Fort Walton Beach, Florida - June 29, 2026 -
Grow With Us Learning Academy is expanding its early childhood education services with a new Fort Walton Beach daycare location opening June 29, 2026, strengthening the academy?s presence in Northwest Florida and increasing access to quality childcare for local families.

The expansion reflects growing demand for comprehensive early learning programs in the Fort Walton Beach area, where the academy now operates multiple facilities. The new center joins Grow With Us Learning Academy?s network across Northwest Florida, with locations serving Fort Walton Beach, Navarre, Niceville, Mary Esther, Pensacola, Pace, and surrounding communities.

?The expansion of our Fort Walton Beach presence allows us to serve more families seeking quality early childhood education,? said Emily Johns, Director of Operations at Grow With Us Learning Academy. ?Our commitment to hands-on learning and age-appropriate activities remains at the core of what we do, and this new location brings our proven approach to more children in the community.?

The academy offers programs for children from infancy through pre-kindergarten: nursery care for infants,

toddler programs focused on motor and language development, preschool curriculum that prepares children for kindergarten, and Voluntary Prekindergarten (VPK) aligned with Florida Early Learning and Developmental Standards.

Each program uses two distinct curricula designed for optimal early education. The nursery program creates a nurturing environment that stimulates infant development, while the toddler program engages children in activities that promote learning through exploration. The preschool and VPK programs emphasize literacy, numeracy, science, and the arts to build strong foundations for future academic success.

The academy?s philosophy centers on the belief that children learn best through hands-on experiences. Teachers implement age-appropriate activities that encourage discovery and engagement, fostering both cognitive and social development, and bring enthusiasm, creativity, and positive reinforcement to every interaction with students.

Beyond its core programs, the academy provides parent resources through its blog, featuring articles on seasonal health tips, choosing the right preschool program, and preparing children for their first day of VPK.

Families can learn more, enroll, or schedule a tour at the new Fort Walton Beach location through the academy?s website or Facebook page.

Grow With Us Learning Academy

We teach through age-appropriate activities while believing children learn best through hands-on experiences. All the while, we must remember that because children are different, they will all learn differently, and at different rates.
