

Wilkins RV Announces Arrival of 2026 Envision 22UDL Travel Trailer

February 12, 2026

BATH, NY - February 12, 2026 - PRESSADVANTAGE -

Wilkins RV has announced the arrival of the 2026 Envision 22UDL travel trailer at its dealership. This new model from Gulf Stream RV features a compact design with modern amenities, as highlighted in a recent walkthrough shared by the dealership. The announcement comes as part of the introduction of 2026 model floorplans, providing options for travelers seeking lightweight trailers.

The 2026 Envision 22UDL measures 25 feet 5 inches in length with an exterior width of 96 inches and a height of 10 feet 6 inches. It offers an interior height of 80 inches, creating a spacious feel within its footprint. The dry weight stands at 3,775 pounds, with a hitch weight of 420 pounds and a net carrying capacity of 3,665 pounds. Water systems include a 47-gallon fresh water tank, a 33-gallon gray tank, and a 33-gallon black tank. Heating is provided by a 20,000 BTU furnace, and the unit includes a tankless water heater along with two 20-pound LP tanks.

Construction details emphasize durability and efficiency. The trailer incorporates a one-piece vinyl roof,

fiberglass exterior sidewalls, and easy-lube axles with radial tires on modular rims. Deluxe slam-latch compartment doors add convenience for storage access. Inside, the layout features a U-shaped dinette, a 60-inch by 74-inch bed with a poly mattress, and a Murphy bed option in related models, though the 22UDL focuses on optimized space usage.

Bathroom amenities include a foot-flush toilet, power bath vent, medicine cabinet with mirror, and a 24-inch by 36-inch bathtub with surround. The kitchen area includes efficient LED lighting, a central command switch panel, and pre-wiring for a roof air conditioner. The SVT Package, standard on this model, adds night shades, a power tongue jack, a tankless water heater, and an electric awning equipped with LED lights and speakers.

Wilkins RV, an RV dealer in Steuben County, NY, selected this model for showcase due to its balance of size and features. The dealership noted the trailer's modern finishes, smart storage solutions, and open living area in its presentation. This design aims to appeal to campers who prefer manageable towing without sacrificing comfort.

Jason Rodbourn, General Manager of Wilkins RV, commented on the new arrival. "This 22' floorplan has everything you would need. It has a smooth fiberglass exterior with pass-through storage and an electric awning. Inside, there is a spacious U-shaped dinette in the rear of the camper and a walk-around queen bed in the front."

The trailer's electrical and plumbing systems further enhance usability. It comes with LED motion sensor lighting in the pass-through storage and a 19,000 BTU gas furnace adaptable to various climates. Furnishings include booth dinettes in comparable floor plans, but the 22UDL's U-shaped setup maximizes seating and sleeping arrangements for up to four people. Refrigerator capacity reaches 8 cubic feet, and the unit supports a sleep capacity of four.

As part of Gulf Stream RV's Envision line, the 22UDL builds on the brand's reputation for lightweight trailers. The manufacturer incorporates Azdel in the sidewalls for added strength and reduced weight. This model joins other Envision variants, such as the 21QBS and 21MBS, each tailored to different preferences in layout and amenities.

Wilkins RV has integrated this new model into its inventory alongside other Gulf Stream offerings. The dealership maintains a selection of travel trailers, fifth wheels, toy haulers, and motorhomes from multiple brands. Customers can access financing options and service support to complement their purchase.

The arrival aligns with seasonal preparations for camping, as noted in the dealership's related communications. Early availability of 2026 models allows for planning ahead of peak travel periods. Wilkins

RV continues to update its offerings based on manufacturer releases and customer feedback.

Founded in 1936 as C Wilkins Used Cars in Hornell, New York, Wilkins RV evolved from an auto detailing shop to a dedicated RV dealership in the 1950s. Under the leadership of Ron Wilkins in the 1960s, the business expanded to include brands like Coachmen and Shasta. Now in its third generation, the company operates multiple locations across New York, including Bath, Brewerton, Waterloo, Nichols, Churchville, and Fulton. Wilkins RV specializes in new and pre-owned RVs, rentals, and related services, serving a broad customer base in the region.
