West Coast Tire & Services Expands Auto Repair Services to San Clemente and Dana Point Communities

April 20, 2026

San Juan Capistrano, CA - April 20, 2026 -
West Coast Tire & Services, a certified GoodYear Auto Service Center in San Juan Capistrano, has announced the expansion of its automotive repair and maintenance services to include the San Clemente area, providing South Orange County residents with an alternative to dealership pricing.

The expansion represents a strategic move by the established automotive service provider to meet growing demand for professional vehicle maintenance and repair services throughout the region. The company, which has operated since 2006, offers comprehensive automotive services including diesel repair, engine rebuilding, suspension work, and tire services.

"Our expansion into San Clemente reflects our commitment to making quality automotive care accessible to more communities in South Orange County," said Todd, a representative from West Coast Tire & Services. "We understand that vehicle owners are looking for reliable alternatives to dealership services, and we're positioned to deliver that same level of expertise at more competitive prices."

The timing of this service area expansion addresses the increasing need for certified automotive technicians in South Orange County. With vehicle complexity continuing to grow and the average age of vehicles on the road increasing, professional maintenance has become more critical than ever for ensuring vehicle safety and longevity.

West Coast Tire & Services distinguishes itself through its combination of ASE-certified technicians and state-of-the-art diagnostic equipment typically found only at dealership service centers. The facility handles both foreign and domestic vehicles, providing everything from routine maintenance to complex engine rebuilds and diesel repairs.

As a certified Good Year San Juan Capistrano service center, the company maintains the standards and training required by the national tire manufacturer while offering the personalized service of a local business. This certification enables the shop to provide warranty-backed tire services alongside its comprehensive mechanical repairs.

The expansion comes as automotive service costs continue to rise at dealerships across California. Independent service centers like West Coast Tire & Services have increasingly become the preferred choice for vehicle owners seeking professional service without premium pricing. The company's established presence in San Juan Capistrano, Dana Point, and Laguna Niguel has demonstrated the viability of this approach.

"We've built our reputation on honest, professional service over the past 18 years," added Todd. "Expanding to serve San Clemente residents is a natural progression that allows us to help more drivers maintain their vehicles properly while managing their automotive expenses."

The company offers financing options and works with extended warranty providers to ensure services remain accessible to all customers. Their service menu encompasses factory-scheduled maintenance, brake repairs, cooling system services, fuel injector cleaning, and wheel balancing, among other specialized services.

West Coast Tire & Services operates as a full-service automotive repair facility specializing in both gasoline and diesel vehicles. The company has served South Orange County since 2006, building a reputation for combining dealership-level diagnostic capabilities with competitive independent shop pricing. Their ASE-certified technicians undergo continuous training to stay current with evolving automotive technology.
