Wilkins RV Introduces 2026 Forest River RV Cherokee Wolf Pup 16LP Travel Trailer

February 17, 2026

WATERLOO, NY - February 17, 2026 - PRESSADVANTAGE -

Wilkins RV has introduced the 2026 Forest River RV Cherokee Wolf Pup 16LP travel trailer to its lineup of recreational vehicles. This model provides a lightweight option for towing with standard amenities suitable for small groups. The addition comes as part of the rollout of 2026 floor plans in the Cherokee Wolf Pup series.

The Cherokee Wolf Pup 16LP has an exterior length of 21 feet 7 inches, height of 10 feet 6 inches, and width of 90 inches. It carries a hitch weight of 400 pounds, an unloaded vehicle weight of 3,039 pounds, and a gross vehicle weight rating of 3,900 pounds. The cargo carrying capacity stands at 861 pounds. Tank capacities include 26 gallons for fresh water, 28 gallons for gray water, and 28 gallons for black water. An awning extends 12 feet for outdoor coverage.

Designed for ease of use, the trailer accommodates up to five people. It features a queen-size bed as part of its sleeping arrangements. The absence of slideouts contributes to a straightforward setup process. The unit emphasizes compact dimensions while maintaining functionality for travel.

The Cherokee Wolf Pup line focuses on lightweight and towability. Models in this series are fully self-contained, offering sufficient tank sizes and storage areas. The 16LP aligns with these characteristics, providing a balance between portability and livability.

Wilkins RV, an RV dealer in Seneca County, NY, has incorporated this travel trailer into its offerings. The dealership maintains inventory from various manufacturers, including Forest River RV.

Jason Rodbourn, General Manager of Wilkins RV, believes "The 2026 Cherokee Wolf Pup 16LP addresses needs for manageable towing without compromising on essential features. Its specifications support practical applications in different camping settings."

The trailer lineup now includes a variety of Cherokee Wolf Pup variants, notably featuring models such as the 14BHLP, 14CCW, 14RKLP, and 16BHSW. These models are available in varying lengths, ranging from approximately 17 to 23 feet, providing options for different preferences and needs. Additionally, the hitch weights for these trailers range between 335 pounds and 535 pounds, making them suitable for a range of vehicles. A common characteristic across these models is their freshwater tank capacity, which is typically around 26 gallons. The exterior widths are also consistent, measuring approximately 90 inches, allowing for a uniform feel across the different models.

Wilkins RV is proud to stock a wide array of travel trailers to cater to diverse customer preferences, along with other offerings such as fifth wheels, toy haulers, and motorhomes. The recent introduction of the 16LP model reflects the dealership's commitment to ongoing updates and enhancements that align with seasonal demands and changing customer needs in the recreational vehicle market.

Each model within the Cherokee Wolf Pup series is constructed with features tailored to withstand various environmental conditions, making them versatile for different camping and travel adventures. While many desirable features may be present across the line, such as power awnings that extend for shade, stabilizing systems to ensure a steady setup, and vibrant LED lighting for evening ambiance, the specifics can vary from one model to another.

The dealership has actively expanded its selections, responding to the latest manufacturer releases and trends within the industry. This proactive approach enables customers to access the newest designs and innovations, ensuring they can effectively plan their travel activities to suit their lifestyle and preferences. With a focus on enhancing the overall travel experience, Wilkins RV remains dedicated to providing quality options for outdoor enthusiasts.

Founded in 1936 as C Wilkins Used Cars in Hornell, New York, Wilkins RV transitioned to recreational

vehicles in the 1950s. Under Ron Wilkins in the 1960s, the business added brands like Coachmen and Shasta. Now in its third generation, the company operates locations in Bath, Brewerton, Waterloo, Nichols, Churchville, and Fulton. Wilkins RV handles new and pre-owned RVs, including rentals and services for customers in the region.
