

## Furniture Pads Found To Protect Floors From Scratches By Chairs and Furniture

*March 30, 2016*

March 30, 2016 - PRESSADVANTAGE -

Auckland, New Zealand - The Bona Hardwood Floor Cleaner claim they are a product that works well to take care of and preserve hardwood floors. Their website Bona.com has informative articles on the general care, design and use of hardwood floors. One such article spoke on "How To Protect Hardwood Floors From Chairs and Furniture.?"

Bona.com identified that sometimes furniture and chair legs can get overlooked as potential sources of floor damage. The website stated that, "unprotected furniture and chair legs can still grind grit and debris into your floor's finish." They then declared that "a popular form of chair leg protection is the chair glide or furniture pad. Quite simply, these are pads made of different types of material that are put on the bottoms of your chair legs."

According to Bona.com, the different types can be tap-on/nail-on pads, self-adhesive pads or slip-on pads. They also vary dependent on the type of material that comprises the floor pads. These different forms of

furniture pads also function best on different floors.

For example, carpet flooring works best with furniture pads of harder materials such as steel or plastic. Hard Floors such as hardwood or ceramic tile function better with felt or rubber pads. The felt should be thick enough however when using heavy furniture. In the case of softer floors such as vinyl or rubber, the homeowner should rely on felt, rubber or plastic as the material for furniture pads.

A representative from SuperiorMaker remarked, "We saw the article from Bona.com and agree with the website that chair glides or furniture pads are a good way to protect floors from scratches and marks made by furniture. Our furniture pads are the self-adhesive variety and are made from felt. That means it provides adequate protection for hardwood floors, ceramic tiles, and soft floors such as vinyl and rubber."

According to SuperiorMaker, they have furniture pads that come in a package of 100. They are made of the highest quality and come in a range of sizes from round to rectangular. This makes it convenient to fit the bottoms of different chair legs and other furniture.

SuperiorMaker has recently released this new product exclusively for the giant online marketplace, Amazon. Those who order now can receive an additional prize of two free homecare ebooks. These include "21 Amazing Interior Design Tips - On a Budget" and "21 Tips for a Better Kitchen Today".
