

## **Endless Energy Announces March Heat Pump Madness Competition with \$20,000 Grand Prize**

*February 25, 2026*

Marlborough, Massachusetts - February 25, 2026 - PRESSADVANTAGE -

Endless Energy has announced the return of its annual heat pump promotion, offering Massachusetts homeowners the opportunity to win a heating and cooling system valued at up to \$20,000. The Heat Pump Madness Giveaway runs through March 31, 2026, and includes automatic entry for all customers who receive a quote for a new heating and cooling system during the promotional period.

The Massachusetts-based HVAC, plumbing, and electrical services provider has expanded this year's promotion to include additional incentives. The first 30 customers who schedule consultations will receive a complimentary indoor air quality system installation with their heat pump purchase. Customers who proceed with their quoted system installation before the drawing date will receive double entries into the grand prize drawing.

"We designed this promotion to make energy-efficient heating and cooling upgrades more accessible to Massachusetts homeowners," said Matt Kidd, spokesperson for Endless Energy. "With rising energy costs and increasing focus on home efficiency, this timing allows families to upgrade their systems while potentially winning back their entire investment."

Endless Energy's March Heat Pump Madness Competition applies to any heating and cooling system quote, including both ducted and ductless heat pump installations. Participants who purchase and install their systems before the April 1 drawing remain eligible to receive the cash value of their system if selected as the winner. The drawing will be conducted via Facebook Live on April 1, 2026, at noon Eastern Standard Time.

The promotion comes at a time when Massachusetts homeowners are increasingly seeking energy-efficient alternatives to traditional heating systems. Heat pumps have gained popularity due to their dual heating and cooling capabilities and potential for significant energy savings. The company also assists customers with navigating available heat pump rebates and offers no-cost home energy assessments to help homeowners understand their efficiency improvement options.

Entry into the promotion requires no purchase, though customers who proceed with installation receive additional entries. All Massachusetts residents who receive a quote for a new heating and cooling system from Endless Energy between now and March 31, 2026, are automatically entered into the drawing.

Endless Energy is a family-owned and operated business with over 40 years of experience serving Massachusetts communities. The company provides comprehensive HVAC, plumbing, and electrical services, specializing in energy-efficient solutions for residential and commercial properties. Their certified technicians handle all installations directly without using subcontractors, and the company offers manufacturer warranties and service warranties for up to ten years. With a focus on customer satisfaction and energy efficiency, Endless Energy has established itself as a trusted provider of home comfort solutions throughout Massachusetts.
