

Its2Cool Expands Bounce House Rentals to Meet Growing Demand for Safe Family Entertainment

February 24, 2026

February 24, 2026 -
Its2Cool, a Canton-based party rental and event services company, announces expanded inventory and enhanced safety protocols for its bounce house rental division in response to increased demand from Massachusetts families and organizations seeking affordable outdoor entertainment options.

The expansion comes as communities throughout the region continue to prioritize interactive, outdoor activities for children's parties, school functions, and community gatherings. The company has added new themed inflatables to its inventory while implementing stricter cleaning and safety standards to address heightened health consciousness among event planners.

"The demand for bounce house rentals has grown significantly as families look for ways to create memorable experiences while keeping children active and engaged outdoors," said Sophia Williams, a spokesperson for Its2Cool. "We've responded by expanding our inventory with popular character themes and implementing rigorous safety inspections between each rental to ensure every family receives equipment that meets the

highest standards."

The party rental industry has experienced steady growth as organizations and families seek alternatives to traditional indoor entertainment venues. Bounce houses and inflatable attractions offer a combination of physical activity, social interaction, and manageable costs that appeal to budget-conscious event planners. School districts, community centers, and religious organizations have increasingly turned to inflatable rentals for fundraisers, field days, and seasonal celebrations.

Its2Cool maintains a diverse selection of inflatable attractions ranging from classic bounce houses to elaborate obstacle courses and water slides. The company's inventory includes themed options featuring popular characters from Disney, Marvel, and other beloved franchises. Each unit undergoes thorough inspection and sanitization between rentals, with particular attention to high-touch surfaces and entry points.

"Beyond bounce houses, we provide comprehensive event support, including tents, tables, chairs, concession machines, and movie screen rentals. Our Canton facility also houses private event spaces suitable for indoor celebrations when weather conditions prove challenging," continued Williams. "Visit Us on our website to learn more and to explore the full range of party rental options and availability."

The expansion also includes broader delivery coverage throughout Massachusetts and select surrounding states, with delivery windows from 7 AM to 12 PM and next-day pickup service. This extended reach allows more communities to access professional-grade party equipment for their events.

The increased focus on outdoor entertainment reflects broader trends in event planning, where hosts seek to maximize space while minimizing indoor crowding. Inflatable attractions naturally encourage spacing as children move through different areas and activities, making them particularly suitable for current health-conscious planning approaches.

Its2Cool serves the greater Boston area and throughout Massachusetts, offering inflatable rentals, slide rentals, party extras, movie screen rentals, and private event spaces. The company specializes in providing safe, entertaining solutions for children's parties, corporate events, school functions, and community gatherings, with a commitment to exceptional service and equipment quality.
