

Laiona Moving LLC Launches Coordinated Storage Program for Residential Clients

February 24, 2026

WINTHROP, MA - February 24, 2026 -
Laiona Moving LLC, a licensed and insured moving company, has introduced coordinated storage service options to support customers who require secure short-term or long-term storage during relocation. The new service assists residents managing timing gaps between homes, renovations, or travel by connecting them with trusted storage facilities while keeping the process organized and professional.

Founded in 2021, Laiona Moving LLC has earned recognition for its structured and reliable approach to residential moves. The company?s coordinated storage program extends this commitment by offering customers a single, managed process from start to finish. By overseeing both transportation and facility coordination, Laiona Moving provides a consistent and efficient experience for every client.

While the company does not operate its own storage warehouses, it partners with pre-screened facilities that meet strict standards for security, accessibility, and cleanliness. Each facility in the network is reviewed to ensure belongings remain protected and easy to retrieve. The program allows customers to store household

items, furniture, or specialty goods with confidence, knowing the same professionals who manage their relocation also handle delivery to and from storage.

?Many of our customers find themselves between homes or waiting for renovation projects to finish,? said Ramy Laribi, owner of Laiona Moving LLC. ?They need storage that is dependable but do not want to deal with multiple companies. Our coordinated service connects them directly with trusted partners while we manage logistics and oversight, making the process simpler and more reliable.?

Each storage coordination begins with a consultation to determine the customer?s needs. The company evaluates factors such as storage duration, access requirements, and environmental conditions. Based on these details, Laiona Moving recommends a facility that matches each client?s situation. Once confirmed, the company arranges pickup, packaging, and secure delivery of items to the selected storage location.

The service follows four steps: planning, packing, transportation, and verification. Planning involves mapping logistics between properties and facilities. Packing includes protective wrapping and labeling to maintain organization. Verification ensures all items are delivered, recorded, and stored correctly before completion.

Each coordinated move includes up to $100,000 in item coverage during handling and transport. This protection gives customers peace of mind while their belongings are under the company?s care. For longer storage terms or special requirements, clients may extend protection through Laiona Moving?s network of partners.

The company emphasizes consistent communication throughout the process. A single coordinator manages the project from start to finish, eliminating confusion and scheduling conflicts. Customers interact with one contact who oversees both the move and storage coordination, creating continuity and accuracy.

?Our process is designed around reliability and simplicity,? Laribi said. ?By keeping one point of communication, we ensure customers know who is handling their belongings and what stage their project is in.?

The coordinated storage program accommodates specialized needs such as temperature-sensitive or fragile items. Facilities within Laiona Moving?s network maintain suitable conditions for delicate goods, fine furniture, or valuable collections.

Laiona Moving operates daily from 8 a.m. to 8 p.m., offering flexible scheduling for customers with limited availability. The addition of coordinated storage strengthens the company?s commitment to making each stage of relocation efficient, organized, and stress-free.

Through this initiative, Laiona Moving LLC continues to expand its role as a trusted resource for residents seeking secure, efficient, and professional moving services across Massachusetts and Greater Boston metropolitan communities.
