

Keathley Landscaping Expands Custom Pergolas and Patio Covers Services in North Texas

March 23, 2026

GARLAND, TX - March 23, 2026 -
Keathley Landscaping, a Dallas-based landscaping company serving North Texas since 2002, announces the expansion of its handcrafted outdoor structure services to meet growing demand for customized backyard living spaces. The company specializes in designing and building durable patio covers and pergolas that transform ordinary backyards into private sanctuaries.

The expansion comes as homeowners increasingly seek professional solutions for outdoor living enhancements that combine functionality with aesthetic appeal. Keathley Landscaping's team creates each structure using premium materials and custom designs tailored to fit the unique characteristics of each property.

"We're seeing more homeowners recognize that a well-designed covered patio or pergola isn't just an addition to their home?it's an investment in their lifestyle and property value," said Logan Keathley, NDS Certified Drainage Contractor and owner of Keathley Landscaping. "Every project we undertake is

handcrafted to meet the specific needs and vision of our clients while ensuring structural integrity that withstands Texas weather conditions."

The company's approach to outdoor structures emphasizes both craftsmanship and customization. Each project begins with a detailed consultation to understand the client's outdoor space requirements, architectural preferences, and intended use. This personalized approach ensures that whether clients are looking for wylie custom pergolas or other outdoor structures, the final result seamlessly integrates with their existing landscape and home architecture.

Beyond pergolas and patio covers, Keathley Landscaping offers comprehensive outdoor living solutions including outdoor kitchens, fire pits, and fireplaces. The company also specializes in drainage solutions, with Logan Keathley's certification as an NDS Drainage Contractor enabling the team to address complex water management issues that often accompany outdoor construction projects.

When considering patio cover cost, homeowners often find that custom-built structures provide better long-term value than prefabricated options. Keathley Landscaping's structures are built to last, using carefully selected wood and materials that offer resilience against the elements while maintaining their appearance over time. The company's craftsmen pay careful attention to every detail, from the initial framework to the finishing touches, ensuring each structure meets both aesthetic and functional requirements.

The expansion of services reflects the company's commitment to providing complete outdoor transformation solutions. From initial landscape design through construction and ongoing maintenance, Keathley Landscaping manages all aspects of creating functional and beautiful outdoor spaces. Their services encompass stonework, retaining walls, flowerbeds, hardscapes, sod installation, landscape lighting, and fence installation and repair.

Keathley Landscaping has built its reputation on delivering quality craftsmanship at reasonable prices throughout the Dallas, Garland, Wylie, Plano, and surrounding areas. The company's portfolio showcases diverse projects ranging from modern minimalist designs to traditional Texas-style outdoor living spaces, each reflecting the unique preferences of their clients while maintaining the structural integrity and durability that has become synonymous with the Keathley Landscaping name.
