

Keathley Landscaping Expands Custom Pergolas and Patio Cover Services in North Texas

March 25, 2026

GARLAND, TX - March 25, 2026 -
Keathley Landscaping announces the expansion of its handcrafted outdoor structure services throughout North Texas, responding to increased demand for customized backyard living solutions. The Dallas-based landscaping company has enhanced its capacity to design and build tailored patio covers and pergolas that transform ordinary backyards into comfortable outdoor sanctuaries.

The expansion comes as homeowners increasingly seek professional solutions for creating functional outdoor living spaces that add both comfort and value to their properties. Keathley Landscaping specializes in constructing murphy covered patios and custom pergolas that are individually designed to complement each property's unique characteristics and meet specific client needs.

"Every outdoor space presents its own opportunities and challenges, which is why we focus on creating completely customized solutions rather than one-size-fits-all structures," said Logan Keathley, owner and NDS Certified Drainage Contractor. "Our handcrafted approach ensures that each patio cover and pergola

not only meets the aesthetic vision of our clients but also provides the durability needed to withstand Texas weather conditions for years to come."

The company's expanded services encompass comprehensive outdoor transformation projects that go beyond basic structure installation. Each project begins with detailed consultation and custom design work, ensuring that the final construction seamlessly integrates with existing landscape features and architectural elements. The team utilizes premium materials selected for both their aesthetic appeal and structural integrity, creating outdoor structures that enhance property value while providing immediate enjoyment.

Keathley Landscaping brings over two decades of experience to each project, having served the North Texas region since 2002. The company's expertise extends beyond custom pergolas and patio cover construction to include complete outdoor living solutions such as outdoor kitchens, fire pits, and fireplaces. This comprehensive approach allows homeowners to create cohesive outdoor environments that serve as natural extensions of their indoor living spaces.

The expansion also addresses the growing need for integrated drainage solutions in outdoor construction projects. As a certified drainage contractor, the company ensures that new structures properly manage water flow and prevent common issues such as pooling or erosion that can compromise both the structure and surrounding landscape.

Supporting services include professional stonework, retaining walls, landscape lighting, and hardscape installation, enabling complete backyard transformations through a single contractor. This integrated service model streamlines project management and ensures consistency in quality and design throughout the entire outdoor space.

Based in Dallas, Keathley Landscaping serves residential clients throughout North Texas, including Plano, Richardson, Allen, Wylie, Garland, and surrounding communities. The company specializes in landscape design and construction, drainage solutions, fence installation and repair, sod installation, and comprehensive lawn care services. Known for combining quality craftsmanship with practical solutions, the company has built a reputation for delivering durable, beautiful outdoor spaces that enhance both property value and quality of life for homeowners throughout the region.
