Digital Engage LLC has been Recognized as 2026 Google Premier Partner

March 02, 2026

Johnson City, Tennessee - March 02, 2026 -
Digital Engage, a full-service digital marketing agency based in Johnson City, Tennessee, has achieved 2026 Premier Partner status in the Google Partners program, placing the agency among the top 3% of Google Partners participants in the United States.

"Achieving Premier Partner status validates our commitment to delivering results for our clients through strategic digital marketing," said a Digital Engage spokesperson. "This recognition from Google reflects our team's expertise in managing complex advertising campaigns and our record of helping businesses grow their online presence."

The Premier Partner designation, announced by Google in February, recognizes digital marketing agencies that demonstrate exceptional expertise in Google Ads management, client growth, and campaign performance. The achievement marks a significant milestone for the Johnson City SEO Marketing firm, which serves businesses across Tennessee from its locations in Johnson City, Nashville, and Knoxville.

As a Premier Partner, Digital Engage gains access to exclusive Google resources, advanced training

opportunities, and specialized support that enhance the agency's ability to serve clients. The designation also includes listing in the Google Partners directory, where businesses seeking digital marketing expertise can identify qualified agencies.

The Google Partners program recognizes advertising agencies and third parties that manage Google Ads accounts on behalf of other brands and businesses. To achieve Premier Partner status, agencies must meet stringent performance requirements, maintain Google Ads certifications, and demonstrate consistent client growth and retention.

Digital Engage serves businesses throughout Tennessee, offering specialized marketing strategies that address the unique challenges faced by different industries. The agency's approach combines technical SEO expertise with comprehensive digital marketing strategies, including paid search campaigns, social media advertising, and reputation management services.

The SEO Agency Johnson City provides comprehensive digital marketing services, including search engine optimization, paid search advertising, social media management, reputation management, and website design. The agency specializes in creating customized marketing solutions for diverse industries, including medical practices, financial services, legal firms, home services, restaurants, and e-commerce businesses.

Digital Engage's website design capabilities span multiple platforms, including WordPress, Shopify, WooCommerce, Squarespace, and Magento, allowing the agency to develop tailored solutions that meet specific business requirements. The company also offers local map SEO services, helping businesses improve their visibility in location-based searches.

According to Google, Premier Partners represent agencies with leading expertise in Google Ads and proven abilities to forge new client relationships while supporting existing clients' growth objectives. These partners receive innovative tools, resources, and support designed to help their clients succeed in competitive online markets.

The Premier Partner achievement comes as businesses increasingly recognize the importance of professional digital marketing management. Recent industry studies indicate that 92% of small businesses report increased visibility through digital marketing efforts, while 80% experience increased leads or sales.

Digital Engage continues to expand its service offerings to meet evolving client needs, providing website hosting, ongoing web support, branding and logo design, and comprehensive SEO services designed to improve search engine rankings and drive qualified traffic to client websites.
