

Triad Flooring & Bath Expands Premium Hardwood Installation Services to Meet Rising Greensboro Home Renovation Demand

March 04, 2026

GREENSBORO, NC - March 04, 2026 -
Triad Flooring & Bath in Greensboro has expanded its premium hardwood flooring installation services to address the increasing demand for home renovations throughout the North Carolina Triad region. The veteran-owned company has enhanced its hardwood flooring division with additional installation capabilities and an expanded selection of premium materials to serve the growing number of homeowners investing in property improvements.

The expansion comes as Greensboro and surrounding communities experience sustained growth in home renovation projects, with hardwood flooring installations representing a significant portion of residential improvement investments. The company has responded by strengthening its hardwood flooring services, which now include comprehensive installation options, professional sanding and finishing, and restoration services for existing floors.

"The demand for quality hardwood flooring installations has increased substantially as homeowners recognize the value these improvements bring to their properties," said a spokesperson for Triad Flooring & Bath. "Our expansion allows us to serve more clients while maintaining the craftsmanship and attention to detail that defines our work. We have invested in professional-grade equipment and expanded our material selection to ensure every project meets the highest standards of quality and durability."

Triad Flooring & Bath hardwood flooring services encompass complete installation projects for new construction and existing homes, professional sanding and refinishing for worn or damaged floors, and specialized restoration techniques for preserving original hardwood features. Each installation utilizes professional-grade tools and techniques developed through more than 15 years of industry experience.

Beyond hardwood flooring, the company maintains comprehensive renovation capabilities including bathroom remodeling, kitchen updates, luxury vinyl plank installation, carpet flooring, and tile work. This full-service approach allows homeowners to coordinate multiple renovation projects through a single contractor, streamlining the improvement process and ensuring consistent quality across all installations.

The expansion reflects broader trends in the home improvement industry, where quality flooring installations have become increasingly important to property values and living comfort. Hardwood floors remain particularly sought after for their durability, aesthetic appeal, and potential return on investment when properties enter the real estate market.

Triad Flooring & Bath operates from its Greensboro showroom, where customers can explore extensive flooring materials and design options. The facility serves as both a consultation space and material selection center, allowing clients to visualize their renovation projects before installation begins.

As a veteran-owned, women-owned, and LGBTQ+ friendly business, the company has established itself as an inclusive service provider in the Greensboro community. The business maintains a strong local presence with a commitment to quality assurance and customer-centric service delivery.

Triad Flooring & Bath specializes in residential renovation services throughout Greensboro and the surrounding Triad region. With over 15 years of experience in flooring installations and home improvements, the company offers comprehensive remodeling solutions including hardwood flooring, bathroom renovations, kitchen updates, and various flooring installations. The veteran-owned business operates from its Greensboro location, providing both in-store consultation services and professional installation throughout the service area.
