

## **Sasso Guerrero & Henderlite Enhances Southside Jacksonville Family Law Firm Digital Resources for Community Access**

*March 03, 2026*

JACKSONVILLE, FL - March 03, 2026 - PRESSADVANTAGE -

Sasso Guerrero & Henderlite has expanded its digital presence through comprehensive updates to its Google Business Profile, providing Jacksonville families with enhanced access to family law information and resources. The Jacksonville Southside family law office has implemented ongoing informational updates through its Google Business Profile's "From the Owner" section, establishing a direct communication channel with the local community.

The firm, which operates as the only practice in Northeast Florida with three Board Certified Marital & Family Law Experts as managing partners, has prioritized transparency and accessibility in its digital communications. The enhanced profile now features regularly updated information about family law services, including divorce proceedings, child custody matters, alimony arrangements, and adoption processes.

"Maintaining accurate and accessible information through our Google Business Profile represents our

commitment to serving Jacksonville families when they need reliable legal guidance most," said Jay Henderlite, managing partner at Sasso Guerrero & Henderlite. "By consistently updating our digital presence and providing educational resources through the 'From the Owner' section, we ensure that families can access critical information about their legal options at any time."

The firm's expanded digital resources complement its comprehensive range of family law services, which include collaborative divorce, military divorce, LGBTQ+ family matters, and prenuptial agreements. The practice also handles criminal law matters related to domestic situations, including domestic violence cases and protective orders.

Through its Google Business Profile updates, Sasso Guerrero & Henderlite provides detailed information about Florida family law procedures, recent legislative changes affecting divorce and custody matters, and guidance on navigating the legal system. The firm has established a pattern of regular communication, publishing informational content that addresses common questions and concerns faced by families experiencing legal transitions.

The initiative reflects broader efforts by the firm to enhance community engagement and ensure that Jacksonville residents have access to reliable legal information. The Google Business Profile serves as a primary touchpoint for many individuals seeking family law assistance, making its maintenance and expansion particularly significant for community access to legal resources.

Additional firm updates and public resources are available through the Sasso Guerrero & Henderlite media center, which houses educational materials, legal guides, and information about the firm's services. The media center provides supplementary resources for individuals seeking to understand their rights and options in family law matters.

Sasso Guerrero & Henderlite specializes in all aspects of family law, including adoption, child support, custody disputes, divorce proceedings, and modifications to existing court orders. The firm also provides criminal defense services for charges related to domestic situations. With its team of board-certified experts, the practice serves clients throughout Northeast Florida, offering both litigation and mediation services to help families resolve legal matters effectively.
