

Juicer Blender Reviews Shortlists the Super Angel Juicer for Top 5 Juicing Machines in Review

April 06, 2016

April 06, 2016 - PRESSADVANTAGE -

Based in Kent, WA, Juicer Blender Reviews has announced that their newly updated review of the popular Super Angel Juicer is now available on their official website. The juicing machine is chosen for its potential to become one of their top five picks. The company is a regular provider of unbiased reviews of juicing appliances, giving insights into how well they work, their overall cost, and other information for consumers. Joe Abraham, who reviewed the juicer, states, "The company has made a ton of upgrades to their machine in the past two years, and we wanted to give it a fair look over."

The review, which can be seen at <http://www.juicerblenderreviews.com/masticating/super-angel/>, gives information about those upgrades, and states that there are choices to be made depending on the consumer's budget. Options available now include the Pro, Deluxe and Premium Deluxe, all of which are touched upon on the newly updated review.

Abraham states, "There are a number of good things with this juicer and, of course, there are things that I didn't find particularly appealing." He says that his aim with the review is to highlight what consumers will most want to know about, such as juicing time and size.

The juicer review can be seen in its entirety at <http://www.juicerblenderreviews.com/masticating/>. It states that nearly any fruit or vegetable can be juiced with the Super Angel Juicer, and that the juicer extracts a high quantity of juice compared to others on the market. It also states that there is little pulp left behind, which means that there is less waste, according to Abraham.

He also included a list of things that he says are not perfect, and that consumers may want to know before they purchase this particular juicer model. He states in the review that although the juicer runs quietly, it takes about 15 minutes to produce, which is long compared to other similar models on the market. The review also states that the juicer is a bit expensive, but Abraham says that the cost is not outrageous.

Those who are interested in reading the newly updated review can do so on the official Juicer Blender

Reviews website at <https://www.facebook.com/JuicerBlenderReviews>. The site states that they have new reviews being published regularly.
