

USA Cabinet Store Expands Kitchen Remodeling Services to Vienna with Dedicated Regional Designer

March 10, 2026

FAIRFAX, VA - March 10, 2026 -
USA Cabinet Store has assigned a dedicated regional designer to serve homeowners in Vienna, Virginia, expanding the company?s single-point-of-contact remodeling service model into one of Fairfax County?s highest-value residential markets. The company announced the expansion following its receipt of a National Kitchen & Bath Association Innovative Showroom Award at KBIS 2026.

Median home values in Vienna exceed $1.1 million according to Fairfax County assessor data, placing the area among the region's most expensive residential markets. The assigned designer will serve as a single point of contact for homeowners from initial kitchen remodeling estimate through final installation and project completion.

A 2025 National Association of Home Builders survey found that 71 percent of homeowners nationally have delayed remodeling projects due to cost concerns. Kitchen remodeling projects in Fairfax County average approximately $75,000, compared with the $27,000 national average reported by HomeAdvisor, while local

bathroom renovations typically range from $17,000 to $35,000.

?Remodeling costs in Fairfax County significantly exceed national averages, which makes coordination on kitchen renovation projects especially important,? said Emin Halac, CEO of USA Cabinet Store. ?The regional designer role consolidates communication and ensures familiarity with local permitting requirements.?

USA Cabinet Store, founded in 2011, currently holds a 4.8 out of 5 rating based on 1,008 reviews on Trust Index. The dedicated designer assigned to Vienna will operate under the same regional service model the company uses across its other locations.

The Vienna designer will also manage bathroom remodeling projects, including fixture selection, cabinetry, tile installation, and vanity coordination. The role covers both full renovations and targeted upgrades.

USA Cabinet Store's approach to kitchen remodeling services encompasses complete transformations, custom design solutions, and functional layouts that improve family lifestyle and home functionality. The company's Vienna designer will use 3D design software to produce project visualizations before construction begins, allowing homeowners to review layouts and material selections prior to construction.

The cabinet store with remodeling concept company operates 14 showroom locations across Virginia, Maryland, North Carolina, Texas, New Jersey, Florida, Missouri, and Tennessee. The company provides design, material sourcing, and installation services for residential kitchen and bathroom remodeling projects, managing each phase from initial consultation through final installation.
