

USA Cabinet Store Announces Expanded Bathroom Remodeling Services in Vienna

March 10, 2026

FAIRFAX, VA - March 10, 2026 -
USA Cabinet Store has announced the expansion of its regional remodeling model to include bathroom renovation for homeowners in Vienna, Virginia, served through its Fairfax showroom. The initiative provides homeowners with dedicated regional bathroom designers who oversee projects from initial estimates through final installation.

The Company, recipient of the NKBA Innovative Showroom Award, now assigns dedicated regional designers to manage bathroom remodeling projects for homeowners in Vienna throughout the entire project lifecycle. This expansion responds to growing demand for professional bathroom renovation in Fairfax County, where mid?range bathroom remodels typically range from about $17,000 to $35,000, well above the national average of roughly $12,000.

The expansion comes as Vienna's housing market continues to show strength, with average home values at $1,132,199 and median sales reaching $1.3 million. Industry data indicates that 71 percent of remodeling

projects experience delays due to uncertainty in planning and execution, making the dedicated designer approach particularly valuable for homeowners seeking bathroom remodeling estimates that accurately reflect local market conditions.

"Vienna homeowners face unique challenges when undertaking bathroom renovations, from navigating Fairfax County building codes to managing costs that exceed national averages," said Emin Halac, CEO and lead designer of USA Cabinet Store. "Our dedicated designer model ensures each client receives personalized attention throughout their project, from accurate initial estimates to final installation, eliminating the confusion that often delays bathroom remodeling projects."

The expanded services for Vienna-area homeowners include full bathroom remodels managed from initial design through final installation. Each dedicated designer coordinates design consultation, permit documentation, fixture selection, and installation scheduling for Vienna homeowners.

The remodeling company?s expansion reflects trends in the home improvement industry, where homeowners increasingly look for single-source partners to manage complex renovation projects. Its 14 showroom locations across multiple states now follow this service model, drawing 15 years of experience in residential kitchen and bathroom remodeling.

The timing of the expansion follows the company's recognition at the NKBA KBIS awards and successful expansions in nearby Merrifield and Falls Church. As Northern Virginia median home values maintain levels above $700,000, bathroom renovations represent significant investments in property value and daily living quality.

USA Cabinet Store specializes in kitchen and bathroom remodeling, offering solutions that include custom cabinetry, countertops, tile, fixtures, and hardware. The company operates 14 showroom locations across Virginia, Maryland, North Carolina, Texas, New Jersey, Missouri, Florida, and Tennessee. Since 2011, USA Cabinet Store has provided design and construction services for residential remodeling projects, combining product selection guidance with professional installation coordination across kitchen and bathroom remodeling projects.
