

OA Design Marketing Ltd Highlights Premium Flooring Solutions for Berkshire Homes

May 07, 2026

BERKSHIRE, UK - May 07, 2026 - PRESSADVANTAGE -

OA Design Marketing Ltd, operating as Edge To Edge Home (Flooring Berkshire) - Flooring Bray, emphasizes the importance of professional flooring selection and installation as homeowners across Berkshire prepare for interior renovation projects this season. The company provides comprehensive flooring services throughout Bray and surrounding Berkshire communities, offering expertise in materials ranging from traditional hardwood to modern luxury vinyl options.

The flooring specialist serves both residential and commercial clients with a diverse portfolio of flooring solutions, including carpet, wood flooring, vinyl flooring, luxury vinyl tile, luxury vinyl plank, laminate flooring, and linoleum options. Each installation project receives customized attention, with specialists guiding clients through material selection, style considerations, and installation methods to achieve optimal results for their specific spaces.

"Selecting the right flooring involves balancing multiple factors including durability, maintenance requirements, aesthetic preferences, and budget considerations," said Oliver Andrews, Design Director at OA Design Marketing Ltd. "Our approach combines technical expertise with design sensibility to help clients make informed decisions that enhance their properties for years to come."

The company maintains partnerships with leading flooring manufacturers, ensuring access to quality materials and the latest innovations in flooring technology. Installation costs typically range from £10 to £100 per square meter, depending on material selection, subfloor preparation requirements, and project complexity. This transparent pricing structure allows clients to plan renovations with clear budget expectations.

Beyond new installations, the company provides floor restoration and renovation services, including professional floor sanding for existing hardwood surfaces. These restoration services help property owners preserve original flooring features while updating their appearance to meet contemporary standards. The restoration process often proves more cost-effective than complete replacement while maintaining the

character of period properties.

Commercial clients benefit from specialized services designed to meet the demands of high-traffic environments. Commercial wood flooring, laminate options, and luxury vinyl tile installations incorporate materials engineered to withstand intensive daily use while maintaining professional appearance standards. The company works with businesses across various sectors to create flooring solutions that support both operational needs and brand aesthetics.

"The flooring industry continues to evolve with new materials and installation techniques that offer improved performance and sustainability," added Andrews. "We stay current with these developments to provide clients with options that meet modern environmental standards while delivering exceptional longevity and visual appeal."

OA Design Marketing Ltd operates throughout Berkshire, serving numerous communities with professional flooring services. The company combines traditional craftsmanship with contemporary installation methods to deliver flooring solutions that enhance both residential and commercial properties. Their comprehensive service approach includes initial consultation, material selection guidance, professional installation, and ongoing maintenance recommendations to ensure lasting satisfaction with every flooring investment.
