

# OA Design Marketing Ltd Expands Flooring Services to Meet Growing Demand in Berkshire

*May 19, 2026*

BERKSHIRE, UK - May 19, 2026 - PRESSADVANTAGE -

OA Design Marketing Ltd, operating as Flooring Berkshire, has announced an expansion of its comprehensive flooring services across Slough and the wider Berkshire region to address increasing demand for professional flooring solutions in both residential and commercial sectors.

The company, which specializes in providing high-quality flooring installations, has enhanced its service offerings to include an extensive range of flooring options including carpet, wood, vinyl, laminate, and luxury vinyl tile installations. This expansion comes as property owners and businesses throughout Berkshire seek reliable flooring specialists who can deliver both aesthetic appeal and long-lasting durability.

"The demand for professional flooring services in Berkshire has grown significantly as property owners recognize the importance of quality installation and material selection," said Oliver Andrews, Director at OA Design Marketing Ltd. "Our expanded services ensure that whether clients need residential wood flooring or commercial-grade luxury vinyl tile, we can provide expert guidance through every step of the process, from initial consultation to final installation."

The company's service portfolio encompasses both residential and commercial projects, with specialized expertise in wood flooring, laminate installations, and luxury vinyl tile applications. For commercial clients, the company provides flooring solutions designed to withstand heavy foot traffic while maintaining visual appeal. Residential customers benefit from personalized consultations that consider lifestyle requirements, usage patterns, and design preferences.

Beyond standard installation services, the company offers specialized services including flooring repair, whipping and binding, floor restoration and renovation, and professional floor sanding. These comprehensive services position Edge To Edge Home (Flooring Berkshire) - Flooring Slough as a complete flooring solutions provider capable of handling projects from initial installation through long-term maintenance.

The expansion addresses a notable gap in the Berkshire flooring market, where property owners often

struggle to find contractors who combine technical expertise with design sensibility. The company works with products from leading manufacturers, ensuring clients have access to the latest flooring innovations and materials that balance durability, comfort, and visual appeal.

Commercial spaces particularly benefit from the company's understanding of sector-specific requirements. Retail environments, offices, and hospitality venues each present unique challenges that require tailored flooring solutions. The company's commercial wood flooring, laminate, and luxury vinyl tile services are specifically designed to meet these diverse needs while adhering to relevant safety and durability standards.

OA Design Marketing Ltd has built its reputation on combining traditional craftsmanship with modern installation techniques. The company guides clients through material selection, style options, and installation methods, ensuring that each project results in flooring that enhances the space while meeting practical requirements. This consultative approach has proven particularly valuable for clients undertaking renovation projects or those unsure about the most suitable flooring options for their properties.

The company serves multiple locations throughout Berkshire, providing consistent quality and service standards across all areas. This regional coverage ensures that both residential and commercial clients can access professional flooring services regardless of their location within the county.
