

Edge to Edge Home Flooring Expands Services Across Berkshire Including Chieveley

May 27, 2026

BERKSHIRE, UK - May 27, 2026 - PRESSADVANTAGE -

OA Design Marketing Ltd has announced the expansion of its comprehensive flooring services throughout Berkshire, with particular focus on meeting growing demand for professional flooring solutions in Chieveley and surrounding communities. The company, operating as Edge To Edge Home (Flooring Berkshire) - Flooring Chieveley, provides residential and commercial clients with an extensive range of flooring options and professional installation services.

The expansion comes as property owners increasingly seek reliable flooring specialists who can deliver both traditional and contemporary solutions. The company offers carpet, wood, vinyl, luxury vinyl tile, luxury vinyl plank, laminate, and linoleum flooring options, alongside specialized restoration and renovation services including floor sanding and refinishing.

"The demand for quality flooring services in Chieveley has grown significantly as more property owners recognize the impact that professional flooring can have on both aesthetics and property value," said Oliver Andrews, spokesperson from Edge to Edge Home Flooring. "Our approach combines traditional craftsmanship with modern materials and techniques to ensure each project meets the specific needs of our clients, whether they're updating a single room or undertaking a complete commercial renovation."

The company's service portfolio extends beyond basic installation to include floor restoration, repair services, and specialized treatments such as carpet whipping and binding. Commercial clients benefit from dedicated services designed to withstand heavy foot traffic, while residential customers can choose from premium wood flooring, cost-effective laminate options, or durable luxury vinyl tile solutions.

OA Design Marketing Ltd guides clients through the entire flooring process, from initial material selection and style consultation to professional installation. The company works with established flooring brands to ensure quality and durability across all projects. Each installation balances practical considerations such as traffic patterns and maintenance requirements with aesthetic preferences and budget constraints.

The expansion of services addresses common challenges faced by property owners, including selecting appropriate flooring for specific environments, understanding cost implications, and maintaining flooring investments over time. The company's expertise spans both new installations and the restoration of existing floors, providing comprehensive solutions for properties throughout the region.

"Professional flooring installation requires more than just technical skill," added Andrews. "It demands an understanding of how different materials perform in various settings, how design choices impact daily living or business operations, and how to maximize both durability and visual appeal within budget parameters."

OA Design Marketing Ltd specializes in providing flooring solutions that enhance both residential and commercial spaces throughout Berkshire. The company combines practical knowledge with design expertise to create flooring installations that elevate any environment. With services ranging from traditional wood flooring to modern luxury vinyl tile installations, the company serves as a comprehensive resource for property owners seeking professional flooring solutions.
