

Edge To Edge Home Flooring Announces Expanded Flooring Installation Services Across Berkshire Region

June 01, 2026

BERKSHIRE, UK - June 01, 2026 - PRESSADVANTAGE -

OA Design Marketing Ltd, operating as Edge To Edge Home (Flooring Berkshire) - Flooring Bracknell, announced today the expansion of its flooring installation services to meet increased demand from residential and commercial property owners throughout the Berkshire region.

The expansion includes enhanced service capabilities for hardwood, laminate, and luxury vinyl tile installations, alongside specialized restoration and repair services. The company has added technical expertise in subfloor preparation, moisture management, and thermal expansion considerations to address contemporary flooring installation requirements.

"Modern flooring installations require technical knowledge beyond traditional placement methods," said Oliver Andrews, spokesperson of Edge To Edge Home Flooring. "We have expanded our service capabilities to include comprehensive subfloor analysis, moisture testing protocols, and acclimatization procedures that ensure proper installation and prevent common flooring issues."

The residential service expansion encompasses wood flooring installations, laminate flooring solutions, and luxury vinyl tile options. Each installation project includes consultation on material selection, style considerations, and installation methods. The company has established partnerships with flooring manufacturers to provide access to current product lines and installation technologies.

Commercial flooring services have been structured to address high-traffic environments in office buildings, retail spaces, and institutional facilities. The commercial division offers hardwood flooring installations, laminate flooring systems, and luxury vinyl tile applications designed for commercial use. Installation protocols include load distribution analysis and traffic pattern assessment to determine appropriate flooring specifications.

Additional services now available include flooring repair, whipping and binding techniques, and floor restoration projects. These services address maintenance requirements and extend the service life of existing

flooring installations. The restoration division handles refinishing of hardwood floors, replacement of damaged sections, and updating of older flooring systems.

The technical requirements for flooring installations have evolved with new materials and building codes. Current installation standards require assessment of substrate conditions, verification of moisture levels, and calculation of expansion gaps. Professional installation addresses these technical specifications while ensuring compliance with manufacturer warranties and building regulations.

OA Design Marketing Ltd has implemented training programs for installation teams to maintain current knowledge of flooring technologies and installation methods. The company maintains certifications from flooring manufacturers and follows industry standards for installation procedures.

Service areas include Bracknell and surrounding Berkshire communities, with installation teams assigned to specific geographic regions. The company coordinates material delivery, installation scheduling, and project completion timelines for both residential and commercial projects.

OA Design Marketing Ltd provides flooring installation services for residential and commercial properties in Berkshire. The company specializes in hardwood, laminate, and luxury vinyl tile installations, along with restoration and repair services. Founded as a regional flooring contractor, the company serves property owners, facility managers, and construction professionals throughout the Berkshire area.
