

Youssi Custom Homes of Iowa Introduces Interactive Virtual Tours for First Time Home Buyers

March 10, 2026

BETTENDORF, Iowa - March 10, 2026 -

Youssi Custom Homes of Iowa has launched interactive walkthrough videos on its website, providing prospective buyers with comprehensive virtual tours of its ranch villas and condominiums at The Condos at Forest Grove Crossing development in Bettendorf. The new digital feature allows potential homeowners to explore floor plans, finishes, and architectural details remotely before scheduling in-person visits.

The interactive technology comes as the company continues development within the Pleasant Valley School District, recently recognized as the top school district in Iowa according to MSN. The virtual tours showcase both the 1,446-square-foot ranch-style villas with full unfinished basements and the condominium options ranging from 1,313-square-foot two-bedroom units to 1,565-square-foot three-bedroom layouts.

"The addition of interactive walkthrough videos represents our commitment to making the home buying process more accessible and transparent," said Shane Youssi, President of Youssi Custom Homes of Iowa. "Prospective buyers can now explore every detail of our homes from their current residence, helping them

make more informed decisions about their future home."

This news article highlights how the company has adapted to changing buyer preferences in the Quad Cities market, which encompasses Davenport, Bettendorf, Rock Island, and Moline. The virtual tours feature the craftsman-style exteriors, nine-foot ceilings, luxury vinyl plank flooring, and Cambria quartz countertops that are standard in all residences at Forest Grove Crossing.

The development offers single-story living options that have seen increased demand in the Bettendorf area. Each home includes an attached two-car garage, high-efficiency gas fireplace, GE stainless steel kitchen appliances, and an oversized trim package with rounded bullnose corners on all walls.

"We recognized that today's buyers want to thoroughly research their options before committing to a property visit," added Youssi. "These virtual tours provide that opportunity while showcasing the quality materials and craftsmanship that define our homes, from the custom-made cabinets from Alabama to the Pennsylvania stone and Minnesota-made Cambria quartz."

The interactive videos complement the company's existing online presence and provide detailed views of both interior and exterior features. Visitors to the website can navigate through different rooms, examine finishes, and understand the flow of each floor plan at their own pace.

Youssi Real Estate & Development Inc. brings over 30 years of experience in residential development to the Iowa market. The company has built more than 500 condominiums across Boone, DeKalb, and Winnebago Counties in Illinois before expanding operations to Bettendorf. The company specializes in higher-end custom single-family homes, condominiums, and townhomes, focusing on move-in-ready properties in sought-after school districts. The Forest Grove Crossing development continues the company's tradition of using premium materials and refusing to compromise on quality, featuring American-made products throughout each residence.

This article about Youssi Custom Homes of Iowa demonstrates the company's ongoing evolution in serving the Quad Cities residential market through technology integration and quality construction.
