Singapore Internet Marketing Consultant Offers Signature Services To Local Businesses

April 06, 2016

April 06, 2016 -

SingaporeSocialMediaMarketing.com, a business in Singapore, is proud to announce that they are now offering their signature internet marketing services to local businesses. It is one of the few companies of its kind in the area, and their service has been welcomed by local businesses across the region. Full details are available through the company's website at http://www.singaporesocialmediamarketing.com/search-engine-marketing/.

Anthony Yap, Marketing Consultant at SingaporeSocialMediaMarketing.com, says: "We are very happy to be able to provide a service to local businesses in Singapore. We don't just offer our services to anyone, however, but only to those businesses where we believe we can give them an excellent return on investment. In so doing, we also support the local economy, helping businesses make their mark on the world."

The company offers a number of different services. As suggested by their name, a strong focus is on social media marketing. In addition, they also offer web design, search engine marketing, video marketing, local business pages marketing, reputation management, custom web copywriting, and Google penalty recovery services. This makes them one of the most comprehensive service providers around.

The company has now started to offer its signature internet marketing service for local businesses, which can be seen at http://www.singaporesocialmediamarketing.com/local-business-pages/. Unlike other companies, Singapore Social Media Marketing doesn't just get pages listed. Rather, they also make sure that the listing is attractive to readers, so that they are more encouraged to actually visit the site itself. "If people see your page listed and do nothing, it is as if they did not see it at all," adds Anthony Yap. "Using our marketing expertise, we help you develop pages to increases visits, trust, and ultimately your bottom line."

The company also believes in leading by example. Singapore Social Media Marketing is highlighting their own social media sites, including their Twitter page on https://twitter.com/singaporesmm. The Twitter page is already proving to be very popular, and people who follow the page are provided with more information on how to gain online dominance in the local market, as well as about the services provided by the Singapore company. Following the social media page also means that people can contact the company for further information.
