

# Green Star Elite Makes It To Top 10 Best Juicers

*April 06, 2016*

April 06, 2016 - PRESSADVANTAGE -

Juicer Blender Reviews, which is a business in Kent, WA, that is quickly establishing themselves as the go to source for information on juicers and blenders, has announced that the Green Star Elite has made it into the top 10 list of juicers and is therefore highly recommended. This company has made it their mission to review the various blenders and juicers available on the market, enabling people to decide which machine is best for them based on honest opinions. The review of the Green Star Elite can be read at <http://www.juicerblenderreviews.com/masticating/green-star-elite/>.

Joe Abraham from Juicer Blender Reviews says: "We have reviewed so many juicers and blenders that we have enough juice to feed a small country. However, it is all worth it if we can help people make a decision on which juicer is right for them, encouraging them to become healthy as well. We have added the Green Star Elite to our list of top 10 products, and we feel this is really deserved, as it truly is an amazing product."

For Juicer Blender Reviews, the ultimate goal is to make sure people can take control of their own health by creating juices and blends that fit in with their lifestyle. Each juicer manufacturer will, obviously, market their own product as the best available, and this makes it very difficult for people to see the truth. As can be seen on <http://www.juicerblenderreviews.com/>, Juicer Blender Reviews wants to help people see past the marketing hype in order to determine which juicer will actually give them the best value for money.

"Juicers aren't cheap, at least the good ones aren't," adds Joe Abraham. "But it is also a fact that the most expensive machine is not necessarily the best one. Each juicer and blender has pros and cons, and which one of those two weigh heaviest is a personal decision only our readers can make."

People are encouraged to like the company's Facebook page at <https://www.facebook.com/JuicerBlenderReviews>. New reviews are posted there, including the top 10 list of best juicers. It also gives people the opportunity to ask questions about the various products that have been reviewed.
