Phoenix Treasures LLC, as can be see on their website at www.phoenixtreasuresllc.com, has a true love for coffee. They have worked very hard to design a French press, which can create both coffee and tea. It allows the user to make the most beautiful coffee, while at the same time ensuring that it is safe to use. There have been numerous reports, for instance, of French presses of lesser quality shattering when hot water is added. It is for this reason that the company have made it using stainless steel and borosilicate glass.

The French press itself has been available for some time and has received many positive reviews. People have commented on the fact that the aroma and flavor of their coffee is far superior than anything they have experienced before. They also commend the safety and strength of the materials. One reviewer, Grant King, says on Facebook: "Great place to get all my coffee needs. A must for any enthusiast."

People are also encouraged to like the Phoenix Treasures LLC's Facebook page on <https://www.facebook.com/Phoenix-Treasures-LLC-460358727476897/>.
